This research aims to identify the sustainability of the Egyptian Boxing Association according to some of the sustainable development goals of the Egyptian State Strategy. The descriptive approach and the survey method were used in this research. The research sample included 194 (194) members of the Board of Directors of the Egyptian Boxing Association and its branches, coaches, referees and referees participating in the Republic championship for the births of 2002. Results showed that the Egyptian Boxing Association lacks the sustainability concept and its dimensions (continuity – development – organizing). Results also indicated Egyptian Boxing Association lacks in achieving equal opportunities, justice, and equality in inputs of practicing.
