

CONTENTS

INTRODUCTION	1
CHAPTER I : The Effective Charge Mechanism	
1 - Introduction	5
2 - Dipole Effective Charge	5
3 - Quadrupole Effective Charge	9
4 - Conclusion	13
CHAPTER II: Differential Cross Section for (γ , n)Reaction	
1 - T-Matrix of γ - Absorption	14
2 - Cross Section of Simultaneous E1 & E2 γ - Absorption	16
CHAPTER III: Numerical Calculations & Results	24
APPENDICES	
I - The Radial Integral	39
II- A - Clebsch Gordan Coefficient	43
B - The Racah Coefficient	46
C - The Reduced Matrix Element	49
