

C O N T E N T S

CHAPTER	PAGE
ACKNOWLEDGMENT	(i)
ABSTRACT	(iii)
I INTRODUCTION & LITERATURE SURVEY	1
1.1. Alumina Ceramics	1
1.2. Conduction Mechanisms in Solide Electro- lytes	2
1.3. Temperature Dependence of the Electrical Conductivity of Alumina	4
1.4. Basic Concepts of Radiation Effects	11
1.5. Effects of Radiation on Ceramic Materials.	12
1.6. Effects of Radiation on the Electrical Properties of Alumina	15
1.7. Effect of Doping on the Electrical condu- ctivity of Alumina	19
II EXPERIMENTAL WORK	28
2.1. Preparation of Undoped γ -Alumina	28
2.2. X-Ray analysis	29
2.3. Doping of γ -Alumina	31
2.4. Irradiation Process of samples	31
2.5. Electrical Conductivity Measurements.....	31
2.6. Differential Thermal Analysis	32

CHAPTER

PAGE

III	RESULTS & DISCUSSION	34
3.1.	The Electrical Conductivity Behaviour of γ -Alumina	35
3.2.	Irradiation Effects on the Electrical Conductivity of γ -Alumina	40
3.3.	Doping Effects on the Electrical Conduc- tivity of γ -Alumina	49
3.3.a-	Electrical Conductivity Behaviour of Li- Doped γ -Alumina.....	50
b-	Electrical Conductivity Behaviour of Fe- Doped γ -Alumina	58
c-	Electrical Conductivity Behaviour of Ti- Doped γ -Alumina	62
	CONCLUSION	66
	REFERENCES	68
	ARABIC SUMMARY
