GENERAL INTRODUCTION	1
CHAPTER I	
Material and Methods	8
I. Identification and Nomenclature of Fishes	8
II. Localities of Fishes	8
III. General Methods	8
1. Helminthological examination and collection of parasites	8
2. Relaxation	10
3. Fixation	10
4. Staining	11
5. Differentiation	12
6. Dehydration	13
7. Clearing	13
8. Mounting	13
9. Drawing and measurements	13
CHAPTER II	
General Survey	
Results and Discussion	14
I. Incidence of Major Groups of Helminth Parasites	14
II. Incidence of Multiple Infections of Fishes	17
III. Incidence of Helminth Infections in Fishes from the Three Lakes	20
1. General incidence of helminth infections in fishes from the three lakes	20
2. Incidence of major groups of helminth infections in fishes from the three lakes	22
IV. Incidence of Digenetic Trematodes Genera in Fish	25
1. Fishes from Lake Manzallah	25
2. Fishes from Lake Edku	27
3. Fishes from Lake Timsah	29
V. Incidence of Trematode Infections in Families of Fish	31
VI. Host Specificity	33
