

CONTENTS

Subject	Page
Introduction	1
Chapter 1: Physiology of Fluid Balance	5
Chapter 2: Microvascular Fluid Exchange	9
Chapter 3: Types of Fluids	16
▪ Crystalloid solutions	16
▪ Glucose solutions.....	23
▪ Colloid fluids	25
▪ Hypertonic solutions	32
▪ Oxygen-carrying plasma expanders	38
Chapter 4: Fluid Therapy in Pediatrics	42
Chapter 5: Hypovolemic Shock	51
Chapter 6: Spinal Anesthesia And Fluid Therapy	58
Chapter 7: Fluid Management In Obstetrics	62
Chapter 8: Fluids In Intraabdominal Operations	66
Chapter 9: Adverse Reactions To Infusion Fluids ...	70
References	76
Summary	90
Arabic summary	

ABBREVIATIONS

AAA	Abdominal aortic aneurysm.
ABP	Arterial blood pressure.
COP	Cardiac output.
ECF	Extracellular fluid.
HES	Hydroxy ethyl starch.
HBOCs	Hemoglobin oxygen carrier.
HR	Heart rate.
HS	Hypertonic solution.
HSD	Hypertonic solution dextran .
ICP	Intracerebral pressure.
NPO	Nil per oral.
MW	Molecular weight.
SV	Stroke volume.
SVR	Systemic vascular resistance.
PFOCs	Perfluorocarbon oxygen carrier.
