Summary.....	I
1.Introduction.....	1
1.1 Writing inks.....	1
1.1.1 Varnish.....	1
1.1.2 Carbon inks.....	1
1.1.3 Iron Gallotannate Inks.....	2
1.1.4 Fountain Pen Inks.....	4
1.1.5 Ball Point Pen Inks.....	5
1.1.5.1 Composition.....	7
1.1.6 Fiber or Porous Tip Pen Inks.....	10
1.1.6.1 Composition.....	11
1.1.7 Rolling Ball Marker Inks.....	11
1.1.7.1 Composition.....	12
1.1.8 Disappearing inks.....	13
1.1.8.1 The Behaviors of Indicators.....	14
1.2 Paper.....	17
1.2.1 Historical Development of Paper and the Paper Manufacture Process.....	17
1.2.2 Additives in Paper Manufacture.....	22
1.2.3 Fibrous Raw Materials for Paper Manufacture.....	24
1.2.3.1 Paper from Non-Wood Sources.....	27
1.2.3.1.1 Bagasse as Non-Wood Source for Paper Manufacture.....	28
1.2.3.1.2 Straw as Non-Wood Source for Paper Manufacture.....	32
1.3 Textile fabrics.....	34
1.3.1 Cotton.....	35

1.3.1.1 Chemical Structure.....	36
1.3.1.2 Fiber properties.....	36
● Microscopic.....	36
● Physical	37
● Chemical.....	38
1.3.2 Polyester.....	39
1.3.2.1 Chemical Structure.....	40
1.3.2.2 Fiber Properties.....	41
● Microscopic.....	41
● Physical	41
● Chemical.....	42
1.3.3 Polyamide.....	43
1.3.3.1 Chemical Structure.....	44
1.3.3.2 Fiber properties.....	45
● Microscopic.....	45
● Physical	45
● Chemical.....	46
Aim of Work.....	47
2. Experimental.....	48
2.1 Reagents.....	48
2.2 Materials.....	48
2.2.1 Papers.....	48
2.2.2 Fabrics.....	48
2.2.3 Pen.....	49
2.3 Procedure.....	49
2.3.1 Preparation of Thymolphthalein Solution.....	49
2.3.2 Preparation of Phenolphthalein Solution	50
2.3.3 Preparation of the Mixture (Thymolphthalein and Phenolphthalein).....	50
2.3.4 Using Thymolphthalein, Phenolphthalein and their Mixture in Writing.....	50

2.4 Measurements and Analysis.....	51
2.4.1 Spectrophotometric Measurement.....	51
2.4.2 Scanning Electron Microscopic Examination.....	51
2.4.3 pH Measurement.....	52
2.4.4 Fading Time Measurement.....	53
2.4.5 Optical Tests.....	53
3. Results and Discussion.....	54
3.1 Effect of Different Concentrations of NaOH with Different Concentrations of Thymolphthalein on the Fading Time Using Paper Surfaces.....	56
3.2 Effect of Large Volume of 1 N NaOH with Different Concentrations of Thymolphthalein on the Fading Time Using Paper Surfaces.....	69
3.3 Effect of Different Concentrations of NaOH with Different Concentrations of Phenolphthalein on the Fading Time Using Paper Surfaces	71
3.4 Effect of Large Volume of 1 N NaOH with Different Concentrations of Phenolphthalein on the Fading Time Using Paper Surfaces	78
3.5 Effect of Different Concentrations of NaOH with Different Concentrations of the Mixture (Thymolphthalein and Phenolphthalein) on the Fading Time Using Paper Surfaces.....	80
3.6 Effect of Large Volume of 1 N NaOH With Different Concentrations of the Mixture (Thymolphthalein and Phenolphthalein) on the Fading Time Using Paper Surfaces.....	85
3.7 Effect of Different Concentrations of NaOH with Different Concentrations of Thymolphthalein on the Fading Time Using Textile Surfaces	87

3.8 Effect of Large Volume of 1 N NaOH with Different Concentrations of Thymolphthalein on the Fading Time Using Textile Surfaces.....	93
3.9 Effect of Different Concentrations of NaOH with Different Concentrations of Phenolphthalein on the Fading Time Using Textile Surfaces.....	96
3.10 Effect of Large Volume of 1 N NaOH with Different Concentrations of Phenolphthalein on the Fading Time Using Textile Surfaces	100
3.11 Effect of Different Concentrations of NaOH with Different Concentrations of the Mixture (Thymolphthalein and Phenolphthalein) on the Fading Time Using Textile Surfaces...	102
3.12 Effect of Large Volume of 1 N NaOH With Different Concentrations of the Mixture (Thymolphthalein and Phenolphthalein) on the Fading Time Using Textile Surfaces...	106
3.13 Deciphering of the Faded Handwriting.....	109
3.13.1 Optical Examination.....	109
3.13.2 Heat Deciphering.....	109
3.13.3 Chemical Deciphering.....	110
3.14 Effect of Adding Optical Brightener.....	111
4. Conclusion.....	113
References.....	116
Arabic Summary.....	i
