Title	Page
INTRODUCTION	1
REVIEW OF LITERATURE	4
I- Toxicity of Bioinsecticide.	4
II- Cytological Analysis.	12
III- Molecular Analysis.	17
MATERIAL AND METHODS	24
1- Materials:	24
1.1. Pesticide	24
1.2. Treatments	24
1.3. Plant system	25
1.4. Animal system	25
2- Methods:	25
2.1. Cytological studies	25
2.1.1. Mitotic study	25
2.1.2. Meiotic study	26
2.2. Molecular study	27
2.2.1. SDS Protein electrophoresis	27
2.2.2. Isozyme electrophoresis	34
2.2.3. DNA isolation	39

RESULTS AND DISCUSSION	43
1. Cytological studies:	43
1.1. Effect of Agerin on plant system:	43
1.1.1. Effect on <i>Vicia faba</i> :	44
1.1.2. Effect of Agerin on <i>Allium cepa</i>	51
2. Biochemical genetic studies:	54
2.1. With <i>Vicia faba</i> :	54
2.1.1. Electrophoretic analysis	54
2.1.2. Isozyme analysis	57
2.2. With mice	62
2.2.1. Electrophoretic analysis	62
2.2.2. Isozyme analysis	67
2.2.3. DNA analysis	72
SUMMARY	78
