

CONTENTS

Subject	Page
CHAPTER I	
INTRODUCTION	
1.1-General outlines.....	1
1.2- Location.....	1
1-3- Climatic conditions and hydrogeologic functions:.....	1
1.4- Previous works.....	7
1.5- Scope of the present work.....	7
CHAPTER II	
GEOLOGIC SETTING	
2.1-General outlines.....	9
2.2- Stratigraphic setting.....	9
2.2.1-The Cretaceous rocks.....	12
2.2.1-1 Lower Cretaceous (Malha Formation:-) (Aptian-Albian).....	12
2.2.1-2- The Cenomanian: (Galalah Formation :-).....	13
2.2.1-3-The Turonian (Wata Formation).....	17
2.2.1-4- Santonian Coniacian - (Matallah Formation).....	18
2.2.1-5- Campanian (Duwi Formation).....	20
2.2.1-6- Maastrichtian (Sudr chalk).....	21
2.2.2-Tertiary.....	22
2.2.2.1- Paleocene (Esna Shale).....	22
2.2.2.2-Lower Eocene (Thebes Formation / Egma limestone).....	23

2.2.2.3- Pliocene (Kuntilla Formation).....	23
2.2.3- Quaternary.....	25
2.3-Structure.....	25
2.3.1The stable foreland.....	28
2.3.2- The gently folded zone.....	28
2.3.3- El Themied fault (Raqabat El Naam fault).....	29
CHAPTER III	
GEOMORPHOLOGY AND SURFACE HYDROLOGY	
3.1-General outlines.....	31
3.2-Geomorphologic units.....	31
3.2.1-The watershed areas (high lands).....	31
3.2.1.1- Tableland area.....	33
3.2.1.1.1-El Tih plateau.....	33
3.2.1.1.2 El Egma plateau.....	35
3.2.1.2- The hilly area.....	36
3.2.2-The water collectors.....	36
3.2.2.1- Inter-tableland depressions (low lands).....	37
3.2.2.2-The hydrographic drainage basins.....	38
3.2.2.2.1 The Mediterranean drainage system.....	38
3.2.2.2.2-Dead sea drainage system.....	47
3.3- Morphometric parameters of the drainage basins.....	49
3.4- Structural and drainage basin lineation analyses.....	61
3.4.1-Wadi Oqaba basin.....	61

3.4.2-Wadi El Rouaq basin.....	62
3.4.3-Wadi Abu Turifya basin.....	62
3.4.4-Wadi Gerafi basin.....	66
3.5- Evaluation of flash flood strength.....	66
3.6- Surface runoff estimation.....	71
CHAPTER IV	
HYDROGEOLOGIC SETTING	
4.1-General outlines	75
4.2- Aquifer characteristics.....	76
4.2.1-The Quaternary (alluvial) aquifer.....	76
4.2.2-The Upper Cretaceous aquifer.....	80
4.2.3-The Lower Cretaceous (Malha Formation) aquifer.....	84
4.3 Geomorphic and geologic impacts on the groundwater.....	95
4.3.1- General outlines.....	95
4.3.2-The morphologic impact.....	95
4.3.3- The lithologic impact.....	96
4.3.4- The interaction of the bed rock, alluvium deposits and other water bearing formations.....	98
4.3.5- The tectonic impact.....	99
Chapter V	
HYDROGEOCHEMICAL SETTING AND GROUNDWATER EVALUATION	
5.1-General outlines.....	101

5.1.1- Hydrochemical characteristics.....	101
5.1.2- Geochemical compositions.....	101
5.1.1.1- Geochemical compositions of Quaternary alluvial aquifer.....	101
5.1.1.1.1- The total salinity (TDS).....	102
5.1.1.1.2- The ion dominance.....	104
5.1.1.1.3- The hypothetical salts combinations.....	104
5.1.1.1.4- The hydrochemical coefficients.....	107
5.1.2.1- Geochemical classification of Quaternary aquifer.....	108
5.1.2.1.1- Geochemical classification based on Sulin’s diagram.....	108
5.1.2.1.2-Geochemical classification using trilinear diagram	108
5.1.1.2- Geochemical compositions of Upper Cretaceous aquifer	110
5.1.1.2.1- The total salinity (TDS) of Upper Cretaceous limestone aquifer	110
5.1.1.2.2- The ion dominance	110
5.1.1.2.3- The hypothetical salts	113
5.1.1. 2.4- The hydrochemical coefficients	113
5.1.2.2- Geochemical classification of Upper Cretaceous aquifer	115
5.1.2.2.1- Geochemical classification based on Sulin’s diagram	115
5.1.2.2.2-Geochemical classification using trilinear diagram	115
5.1.1.3- Geochemical compositions of Lower Cretaceous sandstone aquifer.	118
5.1.1.3.1- The total salinity (TDS) of Lower Cretaceous sandstone aquifer	118
5.1.1.3.2- The ion dominance.....	118
5.1.1.3.3 - The hypothetical salts.....	120
5.1.1.3.4-The hydrochemical coefficients.....	120
5.1.2.3- Geochemical classification of ground water.....	121

5.1.2.3.1- Geochemical classification based on Sulin’s diagram.....	121
5.1.2.3.2-Geochemical classification using trilinear diagram	122
5.2- Evaluation of Groundwater Quality.....	122
5.2.1-General outlines.....	122
5.2.2-Evaluation of groundwater for drinking and domestic purposes.....	122
5.2.3- Evaluation of groundwater for livestock	127
5.2-4- Evaluation of groundwater for irrigation	128
RECOMMENDATIONS	137
SUMMARY AND CONCLUSIONS	140
