

CONTENTS

Aim of the present Investigation

Summary of the Original Work in English.

Part I

Reactions of Furobenzopyran-6-carboxaldehydes with Alkyl Phosphites and Ylidenetriphenylphosphoranes (Wittig Reagents)..... I

Part II

Preparation of 6-(Aryliminomethyl)furobenzopyran-5-ones and Studying their Reaction with Dialkyl Phosphites..... VII

Part III

The Biological Activity of Some New Organophosphorus Compounds Against *Aphis gossypii* (Glover)..... XI

General part

Reactions of Alkyl Phosphites and Wittig Reagents with Aldehydes and Imines.

I- Introduction.....	1
1- Alkyl Phosphites (Phosphite Esters).....	1
2- Phosphorus Ylides (Wittig Reagents).....	3
II- Reactions of Alkyl Phosphites with Aldehydes and Imines.....	8
1- Reaction of Dialkyl Phosphites with Aldehydes.....	8
2- Reaction of Trialkyl Phosphites with Aldehydes.....	15
3- One Pot Three Component Reactions.....	20
4- Reaction of Di- and Trialkyl Phosphites with Imines.....	26
III- Reactions of Wittig Reagents with Aldehydes and Imines.....	37
1- Reaction of Wittig Reagents with Aldehydes.....	37
2- Reaction of Wittig Reagents with Imines	46
3- Reaction of Horner -Wadsworth-Emmons Reagents with Aldehydes.....	49

Original Work

Part I

Reactions of Furobenzopyran-6-carboxaldehydes with Alkyl Phosphites and Ylidenetriphenylphosphoranes (Wittig Reagents).

Introduction.....	51
Results and Discussion.....	53
Conclusion.....	63
Experimental.....	64

Part II

Preparation of 6-(Aryliminomethyl)furobenzopyran-5-ones and Studying their Reaction with Dialkyl Phosphites.

Introduction.....	70
Results and Discussion.....	72
Conclusion.....	78
Experimental.....	79

Part III

The Biological Activity of Some New Organophosphorus Compounds Against *Aphis gossypii* (Glover).

Introduction	91
Materials and Methods.....	92
Effect of treatment with the tested organophosphorus compounds on A. gossypii.....	98
References.....	101

Summary of the Original Work in Arabic.

Part I.....	I
Part II.....	V
Part III.....	IX
