INTRODUCTION	1
AIM OF THE WORK	4
REVIEW OF THE LITERATURE	
❖ Surgical anatomy of the middle ear cleft	5
❖ Physiology of middle ear	25
❖ Physiology of eustachian tube	35
❖ Gas exchange	39
❖ Mastoid pneumatization	46
❖ Otitis media with effusion	52
❖ Pathogenesis of OME	53
❖ Management of otitis media with effusion	67
❖ Role of tympanometry in diagnosis	76
PATIENTS & METHODS	85
RESULTS	93
DISCUSSION	120
SUMMARY & CONCLUSION	124
RECOMMENDATION	126
REFERENCES	127
ARABIC SUMMARY	2-1
