

CONTENTS

-Introduction.	I
-Anatomy of the diaphragm.	1
-Exposure of the diaphragmatic hiatus and the gastroesophageal junction.	11
-Normal function of the esophagus and cardia.	14
-Pathology and diagnosis of eventration.	40
-Pathology and diagnosis of Bochdalek hernia.	45
-Pathology and diagnosis of traumatic hernia of the diaphragm.	64
-Hiatus hernia.	79
-Pathology and diagnosis of sliding hiatus hernia.	87
-Complications of sliding hernia.	103
-Pathology and diagnosis of paraesophageal hernia.	111
-Mixed hiatus hernia.	122
-Pathology and diagnosis of hernia of Morgagni.	123
-Treatment of eventration.	127
-Treatment of Bochdalek hernia.	129
-Treatment of traumatic diaphragmatic hernia.	146
-Treatment of sliding hiatus hernia.	149
-Surgical treatment of paraesophageal hernia.	202
-Anatomical complications of hiatal hernia repair.	206
-Surgical treatment of hernia of Morgagni.	213
-Summary.	214
-References.	221
