

ACKNOWLEDGMENTS

I would like to express my sincere appreciation, gratitude and deepest thanks to Prof. Dr. Ikram M. Alassiuty, Professor of medicine and Head of Gastroenterology Division, Department of Internal Medicine, Banha Faculty of Medicine, for his supervision, kind support, and continuous guidance.

I would like to express my deep gratitude and appreciation to Prof. Dr. Alaa ElDin Ibrahim, Professor of Medicine, Division of Gastroenterology, Department of Internal Medicine, Banha Faculty of Medicine, for supervising this work, providing scientific advice, and guiding my professional development.

My sincere appreciation is expressed to Dr. Fawzy M. Khalil, Assistant Professor of Medicine, Division of Gastroenterology, Department of Internal Medicine, Banha Faculty of Medicine, my day-by-day mentor, for guiding my research work, for many helpful discussions, and for constant and expert advice during the course of the present research.

My thanks are due to Dr. Ismaiel Abd El-Menem, Assistant Professor of Occupational Health in High Institute of Health, University of Alexandria, for his help in recording and interpreting the pulmonary function tests.

I gratefully acknowledge the help of Dr. Ossama Nasr, Assistant Professor of Clinical Pathology in High Institute of Health, University

of Alexandria, for his help in recording and interpreting the laboratory investigations in this work.

I also wish to express appreciation to Hesham El-Ashmawy, Assistant Professor of Cardiology, Faculty of Medicine, University of Alexandria, for his help in recording and interpreting the Echocardiographic study in this work.

Finally, I wish to thank all my colleagues who provided a suitable scientific environment during the course of this work.
