(1) INTRODUCTION

1 - 87

(1) DIABETES MELLITUS

1 - 28

1.1 Definition

1

1.2 Classification

2 - 10

1.3 Etio-pathogenesis of type I D.M.

11 - 15

1.4 Etio-pathogenesis of type II D.M.

16 - 22

1.5 Diagnostic criteria of pathological
hyperglycaemia.

23 - 26

1.6 Monitoring of diabetes

26 - 28

(2) MICROVASCULAR COMPLICATIONS OF D.M.

29 - 44

2.1 Pathogenesis

29 - 36

2.2 Diabetic retinopathy

37 - 39

2.3 Diabetic nephropathy

40 - 42

2.4 Diabetic neuropathy

42 - 44

(3) DIABETIC RETINOPATHY

45 - 69

3.1 Definition

45 - 47

3.2 Pathogenesis

47 - 59

3.3 Incidence

59 - 60

3.4 Factors influencing development and
proression of diabetic retinopathy.

60 - 69

(4) RELATIONSHIP OF MICROVASCULAR DISEASE TO METABOLIC CONTROL.

70 - 87

4.1 Retrospective clinical studies

71 - 72

4.2 Prospective clinical studies

73 - 75

4.3 Retinopathy studies

75 - 79

4.4 Nephropathy studies

79 - 82
