❑ PREFACE AND AIM OF THE WORK	1
❑ INTRODUCTION	2
❑ REVIEW OF LITERATURE	
* Historical Prospectives, Definition and Taxonomy	3
* General Prospectives of salmonella	8
* Morphology and Cultural Characters	8
* Antigenic structure of salmonella	10
* Immune responses to salmonella	22
* Laboratory diagnosis of salmonella	29
* Pathogenesis of <u>S.typhi</u> and its effect on tissue cell lines	39
* Genetic bases of <u>S. typhi</u> invasion properties	44
* Historical review of brucella	48
* Antigenic structure of brucella	51
* Laboratory diagnosis of brucella	57
* Historical review of shigella	64
* Antigenic structure of shigella	69
* Pathogenesis of shigella	70
* Laboratory diagnosis of shigella	73
* Antigenic cross reactivity between brucella , salmonella and other species	76
* Antigenic cross reactivity between salmonella and shigella	79
❑ MATERIALS AND METHODS	83
❑ RESULTS	106
❑ DISCUSSION	120
❑ SUMMARY AND CONCLUSION	136
❑ REFERENCES	139
❑ ARABIC SUMMARY
