| Chapter | page |
|---|------------|
| (I) Introduction | 1 |
| (II) Aim of the work | 4 |
| (III) Review of literature | 5 |
| Urinary tract changes during pregnancy | 5 |
| Renal disorders and pregnancy | 7 |
| Infections of the Urinary tract | 8 |
| • Definitions | 8 |
| • Incidence and Epidemiology | 10 |
| • Classification of Urinary tract infections | 12 |
| • Microbiology | 12 |
| • Pathogenesis | 13 |
| • Routes of infection | 13 |
| • Urinary pathogens | 13 |
| • Predisposing factors for UTI during pregnancy | 14 |
| Asymptomatic Bacteriuria | 20 |
| • Definition | 20 |
| • Epidemiology | 21 |
| • Risk Factors for Asymptomatic Bacteriuria | 22 |
| • Significance | 22 |
| • Pathogenesis | 24 |
| • Microbiology of Asymptomatic bacteriuria | 25 |
| • Diagnosis | 26 |
| • Treatment | 30 |
| Acute pyelonephritis | 34 |
| Cystitis and urethritis | 38 |
| Complicated urinary tract infection | 40 |
| Acute nephrolithiasis | 40 |
| Acute renal failure with pregnancy (ARF) | 41 |
| Acute glomerulonephritis (AGN) | 46 |
| Chronic kidney disease | 46 |
| Nephrotic syndrome | 46 |
| Pregnancy following renal transplantation | 47 |
| Short term and long term antibiotic therapy | 48 |
| Assessment of renal status during pregnancy | 51 |
| Management of UTI | 55 |
| (IV) Subjects and methods | 60 |
| Nitrofurantoin | 63 |
| • Pharmacokinetics | 63 |
| • Uses of nitrofurantoin | 63 |
| • Administration | 64 |
| • Interactions | 65 |
| • Antimicrobial action | 65 |
| • Safety and adverse effects of nitrofurantoin | 67 |
| (V) Results | 72 |
| (VI) Discussion | 95 |
| (VII) Summary and Conclusion | 100 |
| (VIII) References | 101 |
| Arabic summary | |
