New England Journal of Medicine, 301, 1138-1142.

Cohen, M.P., Jasti, K. and Rye, D.L. (1977)

Somatomedin in insulin dependent diabetes mellitus.
Journal of Clinical Endocrinology and Metabolism, 45, 236-239.

Conte, F.A., Grumbach, M.M. et al. (1980)

Correlation of LHRF-induced LH and FSH from infancy to 19 years
with changing pattern of gonadotropin secretion in gonadal
patients: relation to the restraint of puberty.
Journal of Clinical Endocrinology and Metabolism, 50, 163-169.

Copeland, K.C., Underwood, L.E. and Van Wyk, J.J. (1979)

The origin of somatomedin: further evidence that somatomedin-C
is not stored in tissues.
Pediatric Research, 13, 377.

Copeland, K.C., Underwood, L.E. and Van Wyk, J.J. (1980)

Induction of immunoreactive somatomedin-C in human serum by GH: Dose response relationships and effect on chromatographic profiles.
Journal of Clinical Endocrinology and Metabolism, 50, 690-697.

Corrall, R.J. et al. (1974)

Reversal by insulin treatment of abnormal growth hormone pattern in newly diagnosed diabetes mellitus.
Acta endocrinologica, 77, 115-121.

Corvol, M.T., Dumontier, M.F., Rappaport, R., Guyda, H. and Posner, B.I. (1978)

The effect of a slightly acidic somatomedin peptide (ILAs) on the sulphation of proteoglycans from articular and growth plate chondrocytes in culture.
Acta endocrinologica, 89, 263-275.

Craig, J.O. (1970)

Growth as a measurement of control in the management of diabetic children.
Postgraduate Medical Journal, 46, ^{suppl.} 607-610.

Cusick, C.F. (1981)

Ratio of thyroxine to thyroxine-binding globulin.
Annals of Clinical Biochemistry, 18, 93-96.

Custro, N. and Scaglione, R. (1980)

Circadian rhythm of TSH in adult men and women.
Acta endocrinologica, 95, 465-471.

Dammacco, F., Rigillo, N., Chetri, G., Torelli, C., Mastrangelo, C. and Zuccaro, A. (1977)

Monoaminergic control of growth hormone secretion in children.
Ed. G. Chimello and Z. Laron, vol. 12, pp 241-247.

Dasmahapatra, A., Urdanivia, E. and Cohen, M.P. (1981)

Growth hormone response to TRH in diabetes.
Journal of Clinical Endocrinology and Metabolism, 52, 859-862.

Daughaday, W.H. (1981)

Endocrine Control of Growth.
In: Current Endocrinology. Ed. L.V. Avioli. New York, Oxford - Elsevier.

Daughaday, W.H. (1973)

Regulation of skeletal growth by sulfation factor.
Advances in Internal Medicine, 17, 237-263.

Daughaday, W.H. (1975)

Somatomedin levels in human beings.
Advances in Metabolic Disorder, 8, 159-170.

Daughaday, W.H., Hall, K., Raben, M.S., Salmon, W.D., Van den Brande, J.L. and Van Wyk, J.J. (1972)

Somatomedin: proposed designation for sulphation factor.
Nature, 235, 107.

Daughaday, W.H., Laron, Z., Pertzalan, A. and Heins, J.N. (1969)

Defective sulfation factor generation: a possible etiological link in dwarfism.
Transaction of the Association of American Physicians, 82, 129-140.

Daughaday, W.H. and Mariz, I.K. (1962)

Conversion of proline-UC¹⁴ to labelled DH-proline by rat cartilage in vitro: effects of hypophysectomy GH and cortisol.
Journal of Laboratory and Clinical Medicine, 59, 745.

Daughaday, W.H., Mariz, I.K. and Blethen, S.I. (1980)

Inhibition of access of bound somatomedin to membrane receptor and immunobinding sites: a comparison of radioreceptor and radioimmunoassay of somatomedin in native and acid ethanol-extracted serum.
Journal of Clinical Endocrinology and Metabolism, 51, 781-788.

Daughaday, W.H., Parker, K.A., Borowsky, S., Trivedi, B. and Kapadia, M. (1982)

Measurement of somatomedin-related peptides in fetal, neonatal, and maternal rat serum by insulin-like growth factor (IGF) I radioimmunoassay, IGF-II radioreceptor assay (RRA), and multiplication-stimulating activity RRA after acid-ethanol extraction.
Endocrinology, 110, 575-581.

Daughaday, W.H., Salmon, W.D. and Alexander, F. (1959)

Sulphation factor activity of sera from patients with pituitary disorders.
Journal of Clinical Endocrinology, 19, 743

Daughaday, W.H., Phillips L.S., Ewing, A.C. and Mueller, M. (1979)

The effect of hypophysectomy on rat chorionic somatomammotropin as measured by prolactin and growth hormone radioreceptor assays: possible significance in maintenance of somatomedin generation.
Endocrinology, 105, 210-214.

Demerjian, A., Goldstein, H. and Tanner, J.M. (1973)

A new system of dental age assessment.
Human Biology, 45, 211-227.

Denko, C.W. and Bergenstal, D.M. (1955)

The effect of hypophysectomy and growth hormone on ³⁵S fixation in cartilage.
Endocrinology, 57, 76-86.

De Papendieck, L.D., Iorcansky, S., Rivarola, M.A., Heinrich, J.J. and Bergada, C. (1982)

Patterns of TSH response to TRH in children with hypopituitarism.
Journal of Pediatrics, 100, 387-392.

D'Ercole, A.J., Foushee, D.B. and Underwood, L.E. (1976)

Somatomedin-C receptor ontogeny and levels in porcine fetal and human cord serum.

Journal of Clinical Endocrinology and Metabolism, 43, 1069.

D'Ercole, A.J., Morris, M.A., Underwood, L.E. and Van Wyk, J.J. (1977)

Treatment of cushing disease in childhood with cyroheptadine.
Journal of Pediatrics, 90, 834-835.

D'Ercole, A.J., Underwood, L.E., Groekle, J. and Plet, A. (1979)

Leprechaunism: studies of relationship among hyperinsulinism, insulin resistance and growth retardation.

Journal of Clinical Endocrinology and Metabolism, 48, 495-502.

D'Ercole, A.J., Underwood, L.E. and Van Wyk, J.J. (1977)

Serum somatomedin-C in hypopituitarism and other disorders of growth.
Journal of Pediatrics, 90, 375.

D'Ercole, A.J., Wilson, D.F. and Underwood, L.E. (1980)

Changes in the circulating form of serum somatomedin-C during fetal life.

Journal of Clinical Endocrinology and Metabolism, 51, 674-676.

Donnadieu, M., Schimpff, R.M., Garnier, P., Chaussain, J.L. and Job, J.C. (1980)

A possible relationship between serum transferrin growth hormone secretion and height velocity in children.

Acta endocrinologica, 93, 134-138.

Drazen, E., Wechsler, A. and Wiig, K. (1975)

Requirements for computerized patient monitoring systems.

Computer, 8, 22-27.

Draznin, B., Burstein, P.J., Heinrich, U.E., Johnson, C.B., Emler, C.A. and Schalch, D.S. (1980)

Insulin-like growth factor and its carrier protein in hypopituitary, hypothyroid children and adults.

Clinical Endocrinology, 12, 137-142.

Ducharme, J.R. and Collu, R. (1982)

Pubertal development: normal, precocious and delayed.

Journal of Clinical Endocrinology and Metabolism, 11, 57-87.

Dunger, D.B., Holder, A.T., Leonard, J.V., Okae, J. and Preece, M.A. (1982)

Growth and endocrine changes in the hepatic glycogenosis.

European Journal of Pediatrics, 138, 226-230.

Duran-Garcia, S., Gomez-Nieto, J., Fouchereau-Peron, M., Padron, V.F., Obregon, M.J., Morreale de Escobar, G. and Escobar Del Roy, F. (1979)

Effects of thyroid hormones on liver binding for human growth hormone as studied in the rat.

Clinical Endocrinology, 11, 275-289.

Duran-Garcia, S. et al. (1980)

Effects of hypothyroidism and thyroid hormone replacement on the PRL binding sites in rat liver.

Endocrinologia, 27, 143-148.

The effect of somatomedin on adenylyl cyclase and guanylyl cyclase activity in various tissues.
In: "Somatomedin and Growth", Proceedings of the Searle Symposium, Vol. 23. London: Academic Press. pp 37.

Spencer, G.S. (1980)

Relationship between plasma somatomedin activity and levels of cortisol and free fatty acids following stress in pigs.
Journal of Endocrinology, 84, 109-114.

Spencer, G.S.G.. (1981)

Somatomedin activity following glucagon administration to pigs.
IRCS Medical Science, 9, 389-390.

Spencer, G. and Taylor, A.M. (1978)

A rapid more simplified bioassay for somatomedin.
Journal of Endocrinology, 78, 83-88.

Spencer, G.S. , Schabel, F. and Frisch, H. (1980)

Raised somatomedin associated with normal growth hormone.
A cause of Beckwith-Wiedmann syndrome?
Archives of Disease in Childhood, 55, 151-153.

Sperling, M.A. (1982)

Diabetes mellitus.
In: "Clinical Pediatric and Adolescent Endocrinology",
Ed. S.A. Kaplan. Philadelphia: W.B. Saunders. pp 133-134.

Sperling, M.A., Kenny, F.M. and Drash, A.L. (1970)

Arginine-induced GH responses in children: effect of age and puberty.
Journal of Pediatrics, 77, 462

Spitz, I.M., Hirsch, H.J. and Trestian, S. (1983)

The prolactin response to thyrotropin releasing hormone differentiates isolated gonadotropin deficiency from delayed puberty.
New England Journal of Medicine, 308, 575-579.

Spitz, I.M., Zylber-Haran, E.A. and Trestian, S. (1983)

The thyrotropin (TSH) profile in isolated gonadotropin deficiency: A model to evaluate the effect of sex steroids on TSH secretion.
Journal of Clinical Endocrinology and Metabolism, 57, 415-419.

Steendijk, R. (1979)

Diagnostic and aetiologic features of idiopathic and symptomatic GH deficiency in the Netherland. A survey of 176 children.
Helvetica Paediatrica Acta, 35, 129-139.

Stelling, M.W., Goldstein, D.E., Johanson, A.J. and Blizzard, R.M. (1980)

Hypopituitarism and dysmorphology.

In: "Problems in Paediatric Endocrinology", Proceedings of the Sero Symposium, Vol. 32. Ed. C. La Cauza and A.W. Root. London: Academic Press. pp 101-112.

Stempfel, R.S., Sheikholislam, B.M., Lebovitz, H.E. et al (1968)

Pituitary growth hormone suppression with low-dosage, long acting corticoid administration.

Journal of Pediatrics, 73, 767-773.

Sterky, G. (1967)

Growth pattern in juvenile diabetes.

Acta Paediatrica Scandinavica, Suppl. 177, 80-

Suter, S.N., Kaplan, S.L., Aubert, M.L. and Grumbach, M.M. (1978)

Plasma prolactin and thyrotropin and the response to thyrotropin-releasing factor in children with primary and hypothalamic hypothyroidism.

Journal of Clinical Endocrinology and Metabolism, 47, 1015-1020.

Takahashi, K. (1978)

Effect of various traumatic stresses on growth hormone release in Pentobarbital anaesthetised rats.

Neuroendocrinology, 26, 1-7.

Takano, K., Hasumi, Y., Hizuka, N., Kogawa, M., Tsushima, T. and Shizume, K. (1980)

Effect of thyroid hormone on the serum level of SM-A.

Endocrinologica Japonica, 27, 643-653.

Takano, K., Hizuka, N. et al (1977)

Serum somatomedin peptides measured by somatomedin-A radioreceptor assay in chronic liver disease.

Journal of Clinical Endocrinology and Metabolism, 45, 828-832.

Takano, K., Shizume, K., Hizuka, N. et al (1979)

Somatomedin-A in various clinical conditions in man.

In: "Somatomedins and Growth", Proceedings of the Sero Symposium, Vol. 23. Ed. G. Giordano, J.J. Van Wyk and F. Minuto.

London: Academic Press. pp 295-302.

Tanner, J.M. (1960)

The Genetics of Human Growth.

In "Human Growth" - Ed. J.M. Tanner. Symposia of the Society for the Study of Human Biology. 3 : 43-65. Oxford, Pergamon Press.

- Tanner, J.M., Whitehouse, R.H., Hughes, P.C.R. and Vince, F.P. (1971)
Effect of human growth hormone treatment for 1 to 7 years on growth of 100 children, with growth hormone deficiency, low birth weight, inherited smallness, Turner's syndrome and other complaints.
Archives of Disease in Childhood, 46, 745-
- Tanner, J.M., Whitehouse, R.H., Marshall, W.A. and Carter, B.S. (1975)
Prediction of adult height, bone age and occurrence of menarche at ages 4 to 16 with allowance for midparent height.
