INTRODUCTION	1
AIM OF THE STUDY	5
REVIEW OF LITERATURE	
I. Evaluation of nursing documentation	6
II. Nursing documentation	7
III. Systems of nursing documentation:	9
Criteria for selecting nursing documentation system	9
Types of nursing documentation systems	13
Source-oriented record	14
Problem-oriented record	15
Database record	15
Problem list	20
Initial plan	21
Progress notes	24
IV. Methods of documentation:	28
Computerized documentation	28
V. Rules, regulations, and principles of nursing documentation	30
VI. Quality assurance and quality improvement in relation to nursing documentation:	34
Quality assurance	34
Quality assurance in relation to quality improvement	38
Methods of quality assurance	41
Tools of quality assurance	43
Quality improvement and nursing documentation	47

Table		Page
16	Correlation between knowledge and attitude scores among surgical nurses throughout the program.	107
17	Correlation between knowledge and attitude scores among medical nurses throughout the program.	108
18	Audit scores related to items of nursing documentation as evidenced in surgical department records pre- and post-program.	109
19	Audit scores related to items of nursing documentation as evidenced in medical department records pre- and post-program.	111
20	Total audit scores related to nursing documentation as evidenced in surgical and medical departments records pre and post the program.	113
21	Audit scores related to documentation in nursing sheets as evidenced in surgical department records pre- and post-program.	114
22	Audit scores related to documentation in nursing sheets as evidenced in medical department records pre- and post-program.	115
23	Audit scores related to items of nursing documentation in each nursing sheet as evidenced in surgical department records pre- and post-program.	116
24	Audit scores related to items of nursing documentation in each nursing sheet as evidenced in medical department records pre- and post-program.	118
25	Satisfaction scores related to items of satisfaction with nursing care as reported by surgical patients pre- and post-program.	122
26	Satisfaction scores related to items of satisfaction with nursing care as reported by medical patients pre- and post-program.	123
27	Total satisfaction scores related to satisfaction about nursing care as reported by surgical and medical patients pre- and post program.	124
