INTRODUCTION	1
AIM OF THE STUDY	4
REVIEW OF LITERATURE	5
Part I: viral hepatitis	5
A- Hepatitis B virus (HBV)	6
• Epidemiology of HBV	6
• Pathogenesis of HBV	8
• Reservoir of HBV	9
• Mode of transmission of HBV infection	10
• Diagnosis of HBV infection	12
• Clinical manifestation of HBV infection	14
• Complication of HBV infection	15
• Treatment of HBV infection	16
• Immunization for HBV infection	17
B- Hepatitis C virus (HCV)	21
• Epidemiology of HCV infection	22
• Reservoir of HCV infection	24
• Mode of transmission of HCV infection	25
• Diagnosis of HCV infection	28
• Clinical manifestation of HCV infection	29
• Complication of HCV infection	30
• Treatment of HCV infection	30
• Hepatitis B and C as an occupational hazard to health care workers	31

Part II:- Infection control for health care centers to prevent infection from HBV & HCV	32
• Basic principles in infection control	32
• Steps involved in processing instruments	38
• Clinical rooms	46
• Environment and facilities	50
Part III:- Health promotion program and role of community health nurse	54
• Definition of health promotion program	54
• Importance of health promotion for prevention of viral hepatitis infection	55
• Role community health nurse in the prevention of HBV& HCV infection	55
• Educational program	58
SUBJECTS AND METHODS	61
RESULTS	69
DISCUSSION	111
CONCLUSION	122
RECOMMENDATIONS	123
SUMMARY	124
REFERENCES	126
APPENDIX	
ARABIC SUMMARY
