

LIST OF CONTENTS

Chapter	Page
I - Introduction.....	1
II - Aim of the study.....	5
III- Literature Review.....	6
- Nursing process.....	6
- Nursing assessment.....	10
- Data collection	13
-Health history.....	14
-Physical assessment.....	15
-The general principles of physical assessment.....	18
-Approaches of physical assessment.....	20
-Barriers for using physical assessment.....	21
-Preparation for physical assessment	22
-Techniques used for physical assessment	31
- Head-to-Toe Assessment	42
-General physical assessment	42
-Skin, hair, and nails assessment	49
- Assessment of head and neck	52
-Assessment of nose, sinuses, mouth, and oropharynx	53
-Assessment of ears and auditory system	54
-Assessment of eyes and visual system	55
-Assessment of lung and respiratory system	59
-Assessment of heart and peripheral vascular system	63
-Assessment of breast and axilla	68
-Assessment of the abdomen and gastrointestinal system	69
-Assessment of neurological system	73
-Assessment of musculoskeletal system	81
-Documentation.....	83
-Nursing diagnosis.....	84
-Educational program.....	86
-Teaching physical assessment.....	91
IV- Subjects and Methods.....	93
-Design:.....	93
-Setting:.....	93
-Sample:.....	93
-Tools of the study.....	94
-Methods.....	103
-Data Analysis.....	106

Chapter	Page
V- Results.....	107
- Results of the physical assessment opinionnaire	108
1-Results of cognitive information related to physical assessment	108
2- Results of skills related to physical assessment.....	121
-Results of knowledge test (pre-, post-program and after two months)...	136
-Results of observational checklist skills assessment (pre-, post-program, and after two months).....	152
-Results of the patient's physical assessment sheet (pre-, post-program and after two months).....	167
VI - Discussion.....	171
VII - Conclusion and Recommendations.....	190
VIII- Summary.....	192
IX- References.....	201-210
X - Appendices	
XI- Arabic Summary
