<i>Introduction</i>	1
<i>Aim of the study</i>	6
<i>Research hypothesis</i>	6
<i>Review of literature</i>	7-58
Parts of the respiratory system and physiology of respiration.	7
Causes of respiratory failure.	12
Definition and indications of mechanical ventilation.	13
Types of ventilators.	14
Ventilators modes, their advantages and disadvantages.	15
Complications of mechanical ventilation.	19
General nursing interventions associated with mechanical ventilation.	23
Definition and methods of weaning from mechanical ventilation.	26
General nursing interventions associated with determining readiness and discontinuing mechanical ventilation.	27
Definition and epidemiology of ventilator associated pneumonia.	29
Approach to diagnosis of ventilator associated pneumonia.	31
Pathogenesis of ventilator associated pneumonia.	32
Risk factors predisposing to ventilator associated pneumonia.	34
Nursing role on prevention of ventilator associated pneumonia.	36
Educational program.	57
