-Introduction	1
-Aim of the study	4
-Review of literature	
• Infection	
▪ Concepts of infection.....	5
▪ Role of microorganisms' infection.....	6
▪ Types of infection.....	7
▪ Sources of infection	8
▪ Risk to health care workers.....	8
▪ Normal course of infection.....	9
▪ Chain of infection.....	10
• Infection control	
▪ Concept of infection control	16
▪ Standard precaution	18
▪ Isolation Precaution	26
▪ Immunization of health worker	26
▪ Control or elimination of infections agents	27
▪ Sterile field	30
▪ Traffic flow and activity patterns	31
▪ Waste disposal	32
▪ Surveillance	33
▪ Infection control team	33
▪ Role of nurse in hospital infection control	34
▪ Infection control nurse ICN	36
• Infection control measures in the labour and delivery room	
▪ Nursing care and application of the infection control measures during the stage of labour.	40
▪ Instructions and health education to the mother to avoid infection during fourth stage.	50
-Subjects and methods	54
-Results	60
-Discussion	76
-Conclusion	89
-Recommendation	90
-Summary	91
-References	94
-Appendices	
▪ Protocol of the study	
▪ Appendix I	
▪ Appendix II	
-Arabic summary
