Introduction	1
Review of Literature	4
1- Wood smoking and smoke composition	4
2- Potential health concerns associated with smoke ...	14
3- Methods of cheese smoking	20
4- Effect of smoking on food properties	28
Materials and Methods	35
Materials	35
Methods	35
- Cheese making	35
- Sampling	36
- Smoking unit	36
- Chemical analysis of cheese	37
• Moisture content	37
• pH Values	37
• Titrable acidity	37
• Fat content	38
• Salt content	38
• Total nitrogen (T.N.), soluble nitrogen (S.N.) and non-protein nitrogen (N.P.N.)	38
• Total volatile fatty acids (T.V.F.A.)	38
• Shilovich index	38
• Soluble tyrosine and tryptophan	38
• Determination of crud-tension	38
• Determination of carbonyls	39
• Determination of phenols	39
• Determination of polycyclic aromatic hydrocarbons (PAH)	40
Microbiological analysis of cheese	43
• Total bacterial counts	43
• Coliform counts	43
• Proteolytic counts	44
• Lipolytic counts	44
• Moulds and yeasts counts	45

Sensory evaluation of cheese	45
Results and Discussion	46
Part (I) Survey study on market smoked cheese	46
Part (II) Preparation of smoke solutions from different wood species to be used in cheese smoking	54
Section "A" : The smoke composition prepared from different wood species	55
Section "B" : Effect of clarification methods and aging on the properties of smoke solution prepared from Mousky wood	59
Part (III) Effect of using different smoking methods on the chemical, microbiological and sensory evaluation of Dommati like cheese	87
Section "A" : Effect of the used smoking methods on the chemical composition of smoked cheese during storage at room temperature and refrigerator	88
Section "B" : Effect of the used smoking methods on the ripening indices of smoked cheese during storage at room temperature and refrigerator	115
Section "C" : Effect of the used smoking methods on the bacteriological properties of smoked cheese during storage at room temperature and refrigerator	132
Section "D" : Effect of the used smoking methods on the sensory evaluation and curd-tension of smoked cheese during storage at room temperature and refrigerator	148
Summary and Conclusion	153
