Title	Page
I. INTRODUCTION.....	1
2. REVIEW OF LITERATURE.....	3
2.1. The effect of growth regulators on plant growth.....	3
2.1.1. Effect of gibberellic acid.....	3
2.1.2. Effect of IAA.....	9
2.2. The effect of growth regulators on seed yield.....	16
2.2.1. The effect of gibberellic acid on seed yield.....	16
2.2.2. The effect of indole acetic acid on seed yield.....	20
2.3. <b>The effect of growth regulators on chemical components.....</b>	<b>22</b>
2.3.1. The effect of GA on chemical components.....	22
2.3.2. The effect of IAA on chemical components.....	24
2.4. The effect of growth regulators on the biochemical constituents.....	25
2.4.1. The effect of growth regulators on pigments content.....	25
2.4.1.1. The effect of GA on pigments content.	25
2.4.1.2. The effect of IAA on pigments content.	27
2.4.2. <b>The effect of growth regulators on carbohydrate content.....</b>	<b>27</b>
2.4.2.1. <b>The effect of GA on carbohydrates content</b>	<b>27</b>
2.4.2.2. The effect of IAA on carbohydrates content.....	29
2.4.3. The effect of growth regulators on protein content	30
2.4.3.1. The effect of GA on protein content.....	30
2.4.3.2. The effect of IAA on protein content.....	30
2.4.4. The effect of growth regulators on phenol content	31
2.4.5. The effect of growth regulators on oil content.....	32
3. MATERIALS AND METHODS.....	34
4. RESULTS AND DISCUSSION.....	41
4.1. The effect of spraying clover plant with various growth regulators types and concentration at different dates on its growth and quality.....	41
4.1.1. The effect on plant height.....	41

Title	Page
4.1.2. The effect on fresh weight.....	48
4.1.3. The effect on dry weight.....	55
4.1.4. The effect on nutrients concentration.....	60
4.1.4.1. Nitrogen percentage .....	60
4.1.4.2. Phosphorus percentage.....	63
4.1.4.3. Potassium percentage.....	65
4.1.4.4. Calcium percentage.....	65
4.1.4.5. Magnesium percentage.....	65
4.1.5. Pigments concentration .....	67
4.1.6. Reducing, non-reducing and total soluble sugars concentration.....	70
4.1.7. Protein percentage.....	70
4.1.8. Total phenols percentage.....	74
4.2. The effect of spraying soybean plant with various growth regulators types and concentrations at different dates on its growth and quality.....	75
4.2.1. The effect on vegetative growth.....	75
4.2.1.1. Plant height.....	75
4.2.1.2. Fresh and dry weights.....	80
4.2.2. The effect on nutrients concentration.	83
4.2.2.1. Nitrogen percentage.....	83
4.2.2.2. Phosphorus percentage.....	87
4.2.2.3. Potassium percentage.....	87
4.2.2.4. Calcium percentage.....	87
4.2.2.5. Magnesium .....	88
4.2.3. The effect on pigments concentration .....	88
4.2.4. Reducing, non-reducing and total soluble sugars.	92
4.2.5. Protein percentage.....	96
4.2.6. Total phenols concentration.....	97
4.2.7. The effect of growth regulators on yield and yield parameters.....	98
4.2.8. The effect of growth regulators on seed quality....	103
4.2.8.1. Sugars percentages.....	103

<b>Title</b>	<b>Page</b>
4.2.8.2. Total phenols concentration .....	106
4.2.8.3. Protein yield .....	108
4.2.8.4. Oil yield.....	110
5. SUMMARY.....	112
6. REFERENCES.....	119
7. ARABIC SUMMARY.....
