

CONTENTS

Subject	Page
1- INTRODUCTION	1
2- REVIEW OF LITERATURE	3
2.1. Degumming by-product	4
2.1.1. Composition of commercial lecithin	7
2.1.2. Separation of phospholipids	10
2.1.3. Identification and determination of phospholipid in some vegetable oils	11
2.1.4. Fatty acid composition of phospholipids	14
2.1.5. Role of phospholipids in autoxidation process ...	15
2.1.6. Effect of heating on physical and chemical properties of oils	21
2.2. Bleaching by-product	26
2.2.1. Effect of bleaching process on some physicochemical properties of oils	27
2.3. Deodorizer distillate by-product	29
2.3.1. Composition of deodorizer distillate	30
2.3.2. Concentration of tocopherol and sterols in deodorizer distillate	32
3- MATERIALS AND METHODS	37
3.1. Materials	37
3.2. Methods	37

Subject	Page
3.2.1. Separation and determination of unsaponifiable matter.....	37
3.2.2. Obtaining native powder of lecithin	37
3.2.3. Fractionation of phospholipids	38
3.2.4. Fatty acid composition of phospholipids	38
3.2.5. Using native lecithin powder as antioxidant ...	39
3.2.6. Chemical properties of oils	39
3.2.6.1. Identification and determination of fatty acids of oils.....	40
3.2.7. Determination of tocopherols by HPLC	41
3.2.8. Chemical composition of unsaponifiable matter by GLC	41
4- RESULTS AND DISCUSSION	43
4.1. Degumming by-product	43
4.1.1. Gums solubility in petroleum ether and acetone	43
4.1.2. Chemical composition of degumming by-product	44
4.1.3. Production of native powder of lecithin	47
4.1.3.1. Phospholipid composition of native powder of lecithin	47
4.1.3.2. Fatty acid composition of native powder lecithin of soybean, sunflower and corn ...	49

Subject	Page
4.1.4. Hydrocarbons and sterols composition of the unsaponifiable matter of degumming by-product of some edible oils	50
4.1.5. Antioxidant activity of native powder of lecithin	53
4.1.5.1. Effect of addition of lecithin powder on the rate of oxidation of heated sunflower oil	53
4.1.5.2. Effect of addition of lecithin powder on fatty acid composition of heated sunflower oil	62
4.2. Bleaching by-product	65
4.2.1. Solubility of bleaching by-product in petroleum ether	65
4.2.2. Chemical composition of petroleum ether extract of bleaching by-product	66
4.2.3. Hydrocarbon and sterols composition of unsaponifiable matter of bleaching by-products	68
4.3. Deodorization by-product	70
4.3.1. Solubility of deodorizer distillate in petroleum ether	70
4.3.2. Chemical composition of petroleum ether extract of deodorizer distillate	71
4.3.3. Fatty acid composition of deodorizer distillate of soybean, sunflower and corn oil.	73
4.3.4. Hydrocarbons and sterols composition of the unsaponifiable matter of deodorizer distillate, of some edible oil	74

Subject	Page
4.3.5. Determination of total tocopherols in deodorizer distillate of some edible oils	76
Conclusion	77
5- SUMMARY	78
6- REFERENCES	83
7- ARABIC SUMMARY
