<b>List of abbreviations</b>	
<b>List of tables</b>	
<b>List of figures</b>	
<b>Introduction</b>	1
<b>Aim of the work</b>	4
<b>Review of literature</b>	
Chapter 1: <u>The Genus Enterococcus:</u>	5
Taxonomy of enterococci	5
History of enterococci	5
Morphology	6
Natural habitat	6
Cell Metabolism	7
Cell Structure	8
Species	9
Pathogenesis and virulence factors	9
Enterococcal infections	12
Antimicrobial resistance of enterococci	12
Treatment of enterococcal infections	18
Identification of enterococci	19
Typing of enterococci	22
Chapter 2: <u>Vancomycin Resistant Enterococci (VRE)</u>	24
Vancomycin	24
Action of vancomycin on peptidoglycan synthesis	26
Epidemiology of VRE	28
Mechanism of vancomycin resistance	29
Regulation of vancomycin resistance	40
Vancomycin dependent enterococci	42
Colonization versus infection	43
Risk factors for acquisition of VRE	44
Reservoirs of VRE	46
Modes of transmission of VRE	48
Identification of VRE	50
Typing of VRE	53

Clinical impact of VRE	53
Treatment of VRE infections	54
Chapter 3: <u>Infection control of VRE</u>	61
a) Restriction of antibiotic use	61
b) Education programs for hospital staff	64
c) Role of the microbiology laboratory in the detection, reporting and control of VRE	64
d) Implementation of infection control measures	67
e) Surveillance cultures of VRE	70
Attempts to eradicate gastrointestinal colonization	73
Chapter 4: <u>Vancomycin resistant staphylococcus aureus(VRSA)</u>	75
<b>Subjects, materials and methods</b>	77
Subjects	77
Materials	78
Methods	82
Statistical analysis	91
<b>Results</b>	92
<b>Discussion</b>	118
<b>Summary and conclusion</b>	127
<b>Recommendations</b>	129
<b>References</b>	130
<b>Arabic summary</b>
