Abstract.....	
Summary.....	i

I- INTRODUCTION

1.1. Crude Oil Components.....	1
1.1.1. Hydrocarbons.....	1
1.1.2. Non-Hydrocarbons.	3
1.2. Base oils categories.....	6
1.2 .1. Paraffinic base oils.....	6
1.2. 2. Naphthenic base oils.....	6
1.2. 3. Aromatic base oils.....	6
1.3. Additives in lubricating oils.....	7
1.3.1-Friction modifiers.....	7
1.3.2 -Anti-wear additives.....	8
1.3.3 - Extreme pressure (EP) additives.....	8
1.3.4 –Anti-Oxidants	8
1.3.5-Detergents.....	9
1.3.6 - Dispersants.....	9
1.3.7 -Pour point depressants.....	10
1.3.8 - Viscosity index improvers.....	10
1.3.9-Anti-foaming agents.....	10
1.3.10-Emulsifiers and emulsifying aids.....	10
1.3.11-Rust and corrosion inhibitors.....	11
1. 4. Lubricating oils classification.....	13
1. 4 .1. Engine oils.....	13
1.4.2. Industrial Oils.....	15
1 .4 .2. 1. Transformer oils (insulating oils).....	15
1 .4 .2.2. Quenching oils.....	15
1 .4 .2.3. Heat transfer oils.....	16
1 .4 .2.4. Rust protection oils.....	16
1 .4 .2.5 .Compressor oils.....	17
1 .4 .2.6. Gear oils.....	18
1.4.2.7. Refrigerator oils.....	19
1.4.2.8. Cutting oils.....	20
1.4.2.9. Textile Oils.....	20

1.5. Cutting oils	21
1.5.1. Introduction.....	21
1.5.2. History of cutting oils.....	22
1.5.3. Mechanism of action.....	24
1.5.4. The use of cutting oils in drill press operations.....	25
1.5.5. The use of cutting oils in milling operations	25
1.5.6. The use of cutting oils in turning operations.....	26
1.5.7. The use of cutting oils in grinding operations.....	26
1.5.8. Prolongation the life of metalworking fluids.....	27
1.5.9. Cutting fluids types and uses.....	32
1.5.10. Health Effects.....	44
Aim of the work	48

II – EXPERIMENTAL

II.1.Raw materials.....	49
II.2.Analysis of imported semi synthetic cutting oils.....	58
II.2.1. Determination of thermal stability of water mix Metal working fluids.....	58
II.2.2. Determination of stability of water mix Metal working fluids.....	60
II.2.3. Determination of frothing characteristics of water mix Metal working fluids.....	65
II.2.4. Determination of cast iron characteristics Of petroleum products.....	67
II.2.5.Determination of Extreme pressure & Anti-wear Properties of lubricants – Four ball machine method.....	71
II.3. Synthesis of anti - corrosion & anti-wear additives as miscellaneous metalworking additives.....	79
II.4. Preparation of soluble oils.....	81
II.5.Formulation of semi synthetic cutting oils.....	81
II.6.Formulation and evaluation of water soluble cutting oil.....	82
II.7.Field Trials.....	83

Results & Discussions

III.1.Results of imported semi synthetic cutting oils.....	84
III.2.Evaluation of imported semi synthetic cutting oils.....	86
III.3. Formulation and evaluation of Semi synthetic cutting oils.....	87
III.4. Miscellaneous semi synthetic cutting oils additives.....	90
III.5.Evaluation of additives Applications.....	97
II.10.Results of Field Trials.....	100
III.11. Feasibility study.....	103
