Introduction and aim of the work	1
I. Glomerulonephritis.....	4
II. Kidney transplantation	19
III. Post transplantation glomerulonephritis.....	51
IV. Patients and methods.....	81
V. Results	101
VI. Discussion	126
VII. Summary and conclusion	139
VIII. References	142
IX. Arabic summary	

List of Figures

	Page
Fig. 1 Protocol of Conventional Immunosuppression	84
Fig. 2 Protocol of Triple Immunosuppression.	85
Fig. 3 Protocol of Tacrolimus-based Immunosuppression	86
Fig. 4 Protocol of Sirolimus Immunosuppression	87
Fig. 5 Protocol of Steroid avoidance Immunosuppression	88
Fig. 6 Alemtuzumab protocol	89
Fig. 7 Incidence of glomerulonephritis post transplant	121
Fig. 8 Graft survival of the recipients who did not develop GN versus recipients who developed (PTGN)	122
Fig. 9 Graft survival of the recipients who did not develop GN versus recipients who developed recurrent GN, De novo GN and transplant glomerulopathy	123
Fig. 10 Patient survival of the recipients who did not develop GN versus recipients who developed post transplant GN (PTGN).	124
Fig. 11 Patient survival of the recipients who did not develop GN versus recipients who developed recurrent GN, De novo GN and transplant glomerulopathy.	125

List of Tables

	Pa
Table 1	Frequency and clinical significance of recurrent renal diseases. 56
Table 2	Risk of Recurrence and Graft Loss for Different Types of Glomerulonephritis 56
Table 3A	Demographic personal data of the recipients. 101
Table 3B	Causes of ESKD in the 2000 recipients 102
Table 3C	Pre transplant infections in both groups. 103
Table 3D	Pre transplant hypertension and dialysis. 103
Table 3E	Demographic personal data of the donors. 104
Table 3F	Blood group characteristics of the 2000 transplant couples 105
Table 3G	Results of immunological workup of the 2000 transplant couples. 105
Table 4	Surgical characteristics of 2000 transplantation operation 106
Table 5A	Induction immunosuppressant. 107
Table 5B	Maintenance immunosuppression protocols. 107
Table 5C	Secondary immunosuppression protocols and causes of shifting from primary to secondary immunosuppression protocols. 108
Table 5D	Causes of shifting from secondary to tertiary immunosuppression protocols. 109
Table 6	Post transplant complications. 110
Table 7A	Patients with glomerulonephritis as original kidney disease that developed PTGN 111
Table 7B	Patients with original kidney disease other than glomerulonephritis who developed PTGN 111
Table 8	Histo-pathological types of PTGN 112
Table 9	Post transplant medical complication in patients with PTGN 113
Table 10A	induction immunosuppression 113

Table 10B	Primary immunosuppression protocol	114
Table 10C	Secondary immunosuppression and causes of shifting	114
Table 10D	Tertiary immunosuppression protocols	115
Table 11	Incidence of post transplant GN.	116
Table 12	Multivariate analysis of the risk factors of post transplant GN.	117
Table 13	Multivariate analysis of the risk factors of graft survival	120

List of Abbreviations

AHG	Anti-Human Globulin
ANCA	Anti-Neutrophilic-Cytoplasmic-Antibody
ATG	Anti-Thymocyte Globulins
CBC	Complete Blood Count
ATN	Acute Tubular Necrosis
CAN	Chronic Allograft Nephropathy
CD	Cluster of Differentiation
CDC	Complement-Dependent Lymphocytotoxicity
CMV	Cytomegalo Virus
CNI	Calcineurin Inhibitor
CREG	Cross Reactive Epitope Group
CRF	Chronic Renal Failure
CSA	Cyclosporine
DM	Diabetes Mellitus
HUS	Hemolytic Uremic Syndrome
DNA	Deoxyribonucleic acid
ELISA	Enzyme Linked Immunosorbent Assay
EM	Electron Microscopy
ESKD	End Stage Kidney Disease
ESRD	End Stage Renal Disease
FK	Tacrolimus
FSGS	Focal Segmental Glomerulosclerosis
GBM	Glomerular Basement Membrane
GN	Glomerulonephritis
HBV	Hepatitis B Virus
HCV	Hepatitis C Virus
HIV	Human Immunodeficiency Virus
HLA	Human Leucocytic Antigen
IG	Immunoglobulin
IL	Interleukin

KDA	Kilo Dalton
MCA	Mycophenolic Acid
MCD	Minimal Change Disease
MHC	Major Histocompatibility Complex
MMF	Mycophenolate Mofetil
MN	Membranous Nephropathy
MPGN	Membranoproliferative Glomerulonephritis
MTOR	Mammalian Target Of Rapamycin
NEP	Neutral Endopeptidase
ng	Nano Gram
OKT	Orthoclone
PCKD	Poly Cystic Kidney Disease
PRA	Panel Reactive Antibody
PTGN	Post Transplant Glomerulonephritis
RNA	Ribonucleic acid
SLE	Systemic Lupus Erythematosus
TG	Transplant Glomerulopathy
TTP	Thrombotic Thrombocytopenic Purpura
UNOS	United Network For Organ Sharing
