**ABSTRACT** .....

## **CHAPTER 1; INTRODUCTION AND LITERATURE REVIEW**

1.1. Definition .....	1
1.2. Mineral Resources .....	2
1.3. Properties of the Atoms and Ions .....	5
1.4. Ore Processing .....	9
1.5. Group and Individual Separation of Rare Earths ....	13
1.6. Uses and Applications of Rare Earths .....	22
1.7. Economic Aspects .....	25
1.8. Lanthanum .....	31
1.9. Analytical Methods for the Rare Earth Elements .....	34

## **CHAPTER 2; EXPERIMENTAL**

2.1. Chemical and Reagents .....	38
2.2. Instruments and Equipments .....	40
2.3. Materials .....	40
2.4. Analysis Procedures .....	53

2.5. Calculations .....	55
-------------------------	----

## **CHAPTER 3; RESULTS AND DISCUSSIONS**

3.1. Lanthanum Oxide Concentration Process by Fractional Precipitation (Didymia Separation) .....	59
--	----

3.2. Separation of Lanthanum Oxide by Fractional Crystallization .....	79
---	----

<b>SUMMARY</b> .....	118
----------------------	-----

<b>REFERENCES</b> .....	124
-------------------------	-----

<b>ARABIC SUMMARAY</b> .....	141
------------------------------	-----
