Subject	Page
Contents.	a
List of abbreviations.	c
List of figures.	d
List of tables.	f
English summary.	i
1. Introduction.	1
2. Review of literature.	8
2.1.Chemical constituents reported for certain propolis type type	8
2.1.1. Terpenoids.	8
2.1.2. Flavonoids.	12
2.1.3. Phenolic compounds.	16
2.2. Antioxidant activity .	20
3. Material, Methods and Apparatus.	29
3.1. Material.	29
3.1.1. Propolis	29
3.1.2. Material for Chromatography	29
3.1.3. Spray Reagents	29
3.2. Methods.	31
3.2.1. Extraction and Isolation	31
3.2.2. Chromatographic methods	32
3.3. Spectral analysis	33
3.4. Apparatus	34
4. Investigation of the volatile components:	36
4.1. Preparation of volatile fraction	36
4.2. GC/MS analysis of volatile constituents	38
4.3. Results and discussion	47
5. Isolated Compounds:	49
5. 1.Isolated terpenoids:	49
5.1.1. Compound 1	49
5. 1.2 Compound 2	59
5.1.3.Compound 3	69
5.1.4Compound 4	75
5.2. Isolated flavonoids :	85
5.2..1. Compound 5	85
5.2.2. Mix.A.	94

5.2.3. Mix.B.	101
5. 3.compounds still under investigation:	108
5. 3.1.compound 6	108
6. Antioxidant Activity (<i>in vitro</i> - study)	110
6.1.Chemically using DPPH radical scavenging assay	110
6.1.2. Method	110
6.1.3. Results & Discussion	111
6.2.Enzymatic by determining the superoxide	113
6.2.1. Method	113
6.2.2. Results & Discussion	
7- References.	117
Arabic summary.	126
