

SUMMARY OF THE STUDY

The problem of this study can be expressed in the following main question :

How can the content of the Islamic Education textbook at the sixth primary grade in Yamen be chosen scientifically?

From this question, there are sub-questions :

- 1- What are the necessary bases that must be considered in choosing the content of this subject?
- 2- What are the criteria that the content of this subject should be evaluated in their lights?
- 3- What is the actual situation of the content of this subject in the light of these criteria?

Limitations of the study :

- 1) The sixth primary grade Islamic textbook that is being currently taught at the northern governorates in Yamen.
- 2) The content of the book itself.

Procedures of the study :

The study consists of two sides :

A- Theoretical side :

- 1- Reviewing the previous literature and the most related studies. These studies are classified into :
 - Studies in evaluating the Islamic Education Curricula,
 - Studies in evaluating the Islamic textbooks, and
