ACKNOWLEDGMENT.....	I
ABSTRACT.....	II
CONTENTS.....	IV
CHABTER (1) INTRODUCTION	1
1.1 INTRODUCTION.....	1
1.2 AIM OF THE WORK.....	6
1.3 LITERATURE REVIEW.....	7
CHAPTER (2) THEORTICAL ASPECTS	14
2.1 DEFINATIONS.....	14
2.1.1 Sound-Absorption Coefficient.....	14
2.1.2 Sound Reflection.....	14
2.1.3 Sound Velocity.....	16
2.1.4 Acoustic Impedance.....	17
2.1.5 Types of the Acoustic Impedance.....	17
2.1.5.1 Specific acoustic impedance Z_s	18
2.1.5.2 Wave acoustic impedance Z	18
2.1.5.3 Radiation acoustic impedance Z_r	18
2.1.6 Flow Resistivity.....	18
2.2 METHODS OF SOUND-ABSORPTION COEFFICIENT CALCULATIONS.....	19
2.2.1 Tube Method (Tube Interferometer).....	19
2.2.1.1 Standing-wave method.....	20
2.2.1.2 Transfer-function method.....	22
2.2.2 Reverberation Chamber Method.....	23

2.2.2.1 Sabine's formula.....	24
2.2.2.2 Eying's formula.....	24
2.2.2.3 Millington's formula.....	24
2.2.2.4 Arau-Puchades's formula.....	25
2.3 PHYSICO-MECHANICAL PROPERTIES.....	26
2.3.1 Tensile Strength.....	26
2.3.2 Ultimate Elongation (Elongation at Break).....	26
2.3.3 Elastic Modulus.....	27
2.4 STATISTICAL TEST.....	27
2.4.1 Evaluation of Measurement Uncertainty.....	27
CHAPTER (3) EXPERIMENTAL WORK.....	30
3.1 CHARACTERIZATION OF MATERIALS.....	30
3.1.1 Physical Properties.....	30
3.1.2 Mechanical Properties.....	30
3.1.3 Surface morphology	32
3.2 TEST ARRANGEMENTS FOR SOUND ABSORPTION.....	33
3.2.1 Reverberation Room Method.....	33
3.2.1.1 Qualification of the NIS reverberation room.....	33
3.2.1.2 Volume of reverberation room.....	34
3.2.1.3 Shape of reverberation room.....	35
3.2.1.4 Sound absorption area.....	35
3.2.2 Test Specimens.....	38
3.2.3 Temperature and Relative Humidity.....	38
3.3 SPECIFICATION OF NIS REVERBERATION ROOM.....	38
3.3.1 Volume of NIS.....	38
3.3.2 Shape of NIS.....	38

3.3.3 Sound Absorption Area of NIS.....	38
3.3.4 Test Specimens	41
3.3.5 Temperature and Relative Humidity.....	41
3.4 MEASUREMENT OF REVERBERATION TIME.....	42
3.4.1 Microphone and Source Positions.....	42
3.4.2 Instrumentation.....	42
3.4.3 Measurement setup.....	46
CHAPTER (4) RESULTS AND DISCUSSION	5•
4.1 SOUND-ABSORPTION COEFFICIENT.....	50
4.1.1 Effect of Temperature on the Reverberation Time.....	50
4.1.2 Effect of Sample Surface Area on the Reverberation Time (RT).....	52
.....	
4.1.3 Effect of Sample Surface Area on the Equivalent Absorption Area (A_T).....	55
4.1.4 Effect of Sample Surface Area on the Sound Absorption Coefficient (α).....	59
4.2 NOISE-REDUCTION COEFFICIENT.....	63
4.3 STANDARD UNCERTAINTY ACCOMPANIED WITH SOUND ABSORPTION OF VAROIOUS MATERIALS.....	64
4.4 DETERMINATION OF THE CORRECTION OF THE AREA EFFECT ON THE SOUND ABSORPTION COEFFICIENT.....	68
4.4.1 Absorption Coefficient Versus Area and the Estimated Equation.....	68

4.4.2 Comparison Between the Estimated and the Measured Sound Absorption Values.....	73
4.4.3 Absorption Area Corrections.....	76
4.5 ABSORPTION COEFFICIENT VERSUS THICKNESS.....	81
4.6 ACOUSTIC IMPEDANCE.....	82
CONCLUSIONS.....	84
REFERENCES.....	86
ARABIC SUMMARY
