Introduction	1
Aim of the study	5
REVIEW OF LITERATURE:	
I- Preschool age children	6
* Growth and Development	7
* Factors affecting child growth and development	12
* Preschoolers needs	13
* Common health problems	20
II- Parasitic disease	
* The Digestive system.	24
* Parasitic infection	25
* Signs and symptoms	26
* Classification of parasites	28
1- Protozoal infection	
a- Amoebiasis	29
b- Giardiasis.	33
2- Heliminthic infection	36
a- Trematoda (Schistosomiasis)	37
b- Tape worn infection (cestoidean)	
- Taenia saginata	42
- Taenia solium	44
- Hymenolepsi Nana.	46

c- Round worm	
- Ascariasis.	48
- Oxyuriasis	52
d- Hook worm infection	54
III- Risk factors	
- rural health	58
- Family member as caregivers	63
IV- Role of the community nurses	65

LIST OF TABLES

<i>Tables No.</i>	<i>list of tables of review</i>	<i>Page</i>
Table 1:	Recent immunization schedule	20
Table 2:	Distribution of Schistosomiasis in Egypt may be summarized as.	38
	<i>list of tables of results</i>	
Table 1:	Distribution of the child's families regarding general characteristics	82-83
Table 2:	Distribution of the families as regards their home environment	84
Table 3:	Distribution of the preschool children regarding their general health status.	86
Table 4:	Distribution of the preschool children regarding to present medical history.	88
Table 5:	Distribution of the child's families knowledge about intestinal parasitic types, ways of spread and symptoms and signs.	90
Table 6:	Distribution of the child's mothers by the care provided to their children.	93
Table 7:	Distribution of the parasitic preschool children practice by the family regards their disease	94
Table 8:	Relation between total knowledge of studied subject and their general characteristics	95
Table 9:	Relation between total practice of studied subject and their general characteristics	96
Table 10:	relation between total home environment and total practice	97
Table 11:	Relation between total Knowledge and Total practice	98

LIST OF FIGURES

<i>Figure No.</i>	<i>List of figures of review</i>	<i>Page</i>
Fig. (1):	The Digestive System	24
Fig. (2):	Life cycle of amoebiasis	30
Fig. (3):	Life cycle of schistomiasis	39
Fig. (4)	Life cycle of Taenia saginata	43
Fig. (5):	Life cycle of Taenia solium	45
Fig. (6):	Life cycle of Hymenolepiasis Nana	47
Fig. (7)	Life cycle of ascariasis	49
Fig. (8)	Life cycle of oxuriasis	52
Fig. (9)	Life cycle of hook worm infection	55
	<i>List of figures of results</i>	
Fig. (1)	Mothers knowledge about prevention and complications of parasitic disease	91
Fig. (2)	Distribution of the families as regards their source of knowledge	92

LIST OF ABBREVIATION

AAP: American academy of pediatric

ADLS: Activities of daily living

AIPD: All India publishers distributors

B.C: Bachelor of chemistry

CDC: Centers of disease and control

C°: Cel-si-ous

CO: Company

DNS: Disease nursing statistical

G.I.T: Gastro-intestinal tract

H. Nana: Hymenolepiasis nana

i.e. : (L- idest) that is

1Q: Inelegance question

MCH: Maternal Health center
