

CONTENTS

Introduction and Aim of the Work	1
Review of Literature	5
- Physiology of hearing	5
- History of tympanoplasty	10
- Etiology of permanent tympanic membrane perforations	12
- Pathology of permanent central tympanic membrane perforation	16
- Effects of tympanic membrane perforation on hearing	17
- Advantages of closure of permanent perforation	19
- Contraindications to closure of a tympanic membrane perforation	20
- Function of the graft in the healing pattern of the tympanic membrane	22
- Grafts used in myringoplasty	24
- Factors affecting success of tympanoplasty	38
Patient and Methods	40
Results	51
Discussion	63
Conclusion	74
Summary	76
