

TABLE OF CONTENTS

| | Page |
|---|------|
| <input type="checkbox"/> Introduction and aim of the work | 1 |
| <input type="checkbox"/> Review Of Literature | 4 |
| Chapter 1 HCV | |
| • HCV , genotypes and life cycle | 4 |
| • Epidemiology | 5 |
| • Clinical picture | 7 |
| • Diagnosis | 9 |
| • Treatment | 10 |
| • Interferon | 12 |
| Chapter 2 HEPATIC FIBROSIS | |
| • Introduction | 19 |
| • Clinical aspects of hepatic fibrosis | 20 |
| • Pathophysiology | 21 |
| • Mechanisms regulating hepatic fibrosis | 34 |
| • Methods to measure fibrosis | 37 |
| • Treatment of fibrosis | 46 |
| Chapter 3 THYROID GLAND | |
| • Embryology and Anatomy | 54 |
| • Hyperthyroidism | 55 |
| • Hypothyroidism | 67 |
| • Subclinical hypothyroidism | 72 |
| Chapter 4 HCV AND THYROID GLAND | |
| • HCV And Autoimmune Thyroid Diseases: | 75 |
| • Thyroid abnormalities in liver Disease | 79 |
| • Specific forms of chronic liver disease | 80 |
| • Liver abnormalities in thyroid disease | 82 |
| <input type="checkbox"/> Patients And Methods | 89 |
| <input type="checkbox"/> Results | 97 |
| <input type="checkbox"/> Discussion | 109 |
| <input type="checkbox"/> Reference | 119 |
| <input type="checkbox"/> Arabic summary | |
