

TABLE OF CONTENTS

	Page
INTRODUCTION AND AIM OF THE WORK	vi
List of Abbreviations.....	viii
List of Tables	ix
List of Figures	xii
List of Attachments	xiv
 <u>PART I: REVIEW OF LITERATURE</u>	
 <u>Chapter 1: BRONCHIAL ASTHMA</u>	
Definition	1
Classification and clinical types	3
I. Extrinsic asthma	6
II. Intrinsic asthma	8
III. Mixed asthma	10
IV. Some special forms of asthma	10
a- Aspirin induced asthma	10
b- Exercise induced asthma	11
c- Allergic bronchopulmonary asper- gillosis	12
Pathology of asthma	13
Pathogenetic mechanisms of asthma	15
I. Immunologic concept of bronchial asthma	15
II. Hyperirritability of airways	16
A- The cholinergic reflex theory	16
B- The beta-adrenergic theory	16

	Page
<u>Chapter 2: EPIDEMIOLOGY OF BRONCHIAL ASTHMA</u>	20
Prevalence of childhood asthma	20
Factors affecting prevalence of bronchial asthma	23
I. Racial factors	23
II. Genetic factors	24
1) Family studies	25
2) Twin studies	26
3) Small isolated population studies.....	26
III. Effect of age and sex	27
IV. Environmental factors	29
1) Geographic and meteorologic influence	29
2) Social class	31
V. Psychological factors	31
VI. Infections	32
VII. Risk factors.....	33
Morbidity and school absence caused by asthma	34
Asthma deaths	37
<u>Chapter 3: ALLERGENS IMPORTANT IN BRONCHIAL</u> <u>Asthma</u>	40
I. House dust	41
II. House dust mites	42
III. Pollens	44
IV. Fungi (Moulds)	46
V. Epidermal allergens	48
VI. Foods	50

	Page
<u>Chapter 4: IMMUNOLOGY OF BRONCHIAL ASTHMA</u>	52
Hypersensitivity reactions.....	52
I. Immediate type hypersensitivity	52
II. Late allergic reaction	59
The Immunoglobulin E	62
Physiochemical properties of IgE	63
IgE synthesis	65
Regulation of IgE response	69
1) Genetic control	69
a- IgE regulation Genes	69
b- HLA coupled Ir Genes	70
c- Additional genetic control mechanism	70
2) Other factors controlling IgE response	71
1- Environmental factors	71
2- Terrain factors	72
3- Immunodeficiencies	72
4- T-cells	72
5- Idiotopes	73
The Immunoglobulin G ₄ (IgG ₄)	74
Immunochemical aspects of IgG ₄	74
Biological properties of IgG ₄	75
Role of IgG ₄ in allergic conditions	78
The IgG S-TS	81

	Page
<u>PART II: PRACTICAL WORK</u>	
<u>Chapter 5: MATERIAL AND METHODS</u>	83
A- Subjects of the study	83
B- Methodology	83
I. Epidemiological study	83
1) Preparatory steps	83
2) Sampling method	84
3) Survey instrument	84
II. Immunological study	88
1) Clinical evaluation	88
2) Routine investigation	91
Radiology	91
Stool and urine analysis	91
Leucocytic count	92
3) Immunological tests	92
a- Skin testing	93
b- IgE detection	96
III. Statistical methods	104
<u>Chapter 6: RESULTS OF ANALYSIS OF DATA</u>	106
- Characteristics of the survey population	106
- Point prevalence of bronchial asthma	106
- Sex consideration	107
- Age consideration	107
- Degree of education of fathers	107

	Page
- Degree of education of mothers	108
- Occupation of fathers.....	108
- Work of mothers	108
- Family income.....	109
- Family size	109
- Crowding index	109
- Persons in bed-room	109
- Family history of bronchial asthma	110
- Family history of allergic disease	110
- Personal history of allergic disease	110
- Age of onset of asthma	110
- Clinical data.....	111
- Stool and urine analysis results	112
- Blood eosinophilic count results	112
- Radiological examination results	113
- Skin testing results	113
- Total serum IgE determination results.....	114

PART III

<u>Chapter 7:</u> DISCUSSION	153
<u>Chapter 8:</u> SUMMARY AND CONCLUSION	184
<u>Chapter 9:</u> REFERENCES	187
<u>Chapter 10:</u> ARABIC SUMMARY
