Arabic summary	

LIST OF FIGURES

No	Content	Page
1	Patients studied regarding male and female distribution according to age in out patient clinics of Benha children hospital	70
2	distribution of epileptic children according to age at onset	71
3	distribution of epileptic children according to type of seizures	72
4	distribution of epileptic children according to type of aura	73
5	The distribution of epileptic patients in Benha children hospital according to the seizure frequency	75
6	The distribution of epileptic patients in Benha according to post ictal phenomena	76
7	distribution of epileptic patients in Benha according to possible aetiology	77
8	The distribution of epileptic patients in Benha children hospital according to number of AED	79
9	The distribution of epileptic patients in Benha according to the type of antiepileptic drugs	80
10	The distribution of epileptic patients in Benha children hospital according to seizures associated conditions	81
11	Bar chart showing correlation between family history and type of seizures	82
12	distribution of epileptic patients in Benha children hospital according to type of EEG activity	84
13	distribution of epileptic patients in Benha children hospital according to imaging findings	85

LIST OF TABLES

No	Content	Page
1	Proposal for classification of epilepsies and epileptic syndromes	16
2	Classification of AEDS	53
3	Description of age in this study	69
4	Sex and age specific prevalence of epilepsy for each age group in epileptic children in Benha	69
5	distribution of epileptic children according to age at onset	70
6	distribution of epileptic children according to type of seizures	72
7	distribution of epileptic children according to type of aura	73
8	frequency of seizures per year in 50 epileptic children in Benha	74
9	Postictal phenomena in epileptic children in Benha	75
10	possible aetiological factors in epileptic patients in Benha	77
11	number of antiepileptic drugs and their percentage used by epileptic children in Benha	78
12	antiepileptic drugs used and their percentage of use in epileptic children in Benha	79
13	Possible associated conditions occur in the study group	81
14	correlation between family history and type of seizure	82
15	incidence of different interictal EEG activity in epileptic patients in Benha	83
16	imaging findings in epileptic children in Benha	84
