

CONTENTS

- Introduction	1
- Human tissue biology.....	3
• Bone tissue	4
• Cartilage tissue	12
• Ligament tissue	18
• Nerve tissue.....	19
• Molecular biology.	26
• Growth factors :types	36
-Tissue Engineering and Gene therapy	43
•Tissue Engineering.....	43
Scaffolds.....	
Cells.....	
Growth factors: their carriers	
•Gene therapy.....	49
Non viral vectors	
Viral vectors	
-Tissue engineering of specialized tissues	
Bone tissue engineering.....	54
Bone cell engineering	
Bone scaffolds engineering.....	
Menisci tissue engineering.....	64
Cruciate ligament tissue engineering	68
Intervertebral disk tissue engineering	72
Peripheral nerve tissue Engineering.....	75
Guidance channel properties.....	
-Summary.....	81
-References	89
