

Contents

Introduction	1
Aim of the work	3
Vascular disease in chronic kidney disease	4
Vascular disease in ESRD	6
CKD as a risk factor for vascular disease	7
Vascular function in ESRD and CKD	12
Pathogenesis of the increased vascular risk in CKD	14
Traditional vascular risk factors	15
Non-traditional vascular risk factors	20
Altered nitric oxide metabolism	22
Uric acid	23
Fibrinogen	23
Oxidative stress	24
Sympathetic activity	25
MIA syndrome	25
Atherosclerosis in CKD	28
Atherosclerosis in chronic kidney disease	31
CKD and macrophage lipid homeostasis	39
CKD and lipoproteins	39
CKD activation of angiotensin II	54
Diagnosis of atherosclerosis	48
Treatment	54
Stroke in chronic kidney disease	65
Mechanism of stroke	66
CKD as a risk factor for stroke	69
CVS incidence, characteristics, and outcome in patients initiating dialysis	70
Preventing stroke	74
Acute management of BP during stroke	79
Summary	85
References	89
