

LIST OF FIGURES

Figure	Page
1. CSF Dynamics	11
2. Acute papilloedema	26
3. Chronic papilloedema	27
4. Disc atrophy	28
5. Automated perimetric image of papilledema	33
6. Magnetic resonance image	37
7. Axial MRI scan of orbits in a typical IIH case with papilloedema	38
8. Papilledema. & Fluorescein angiogram	39
9. Ultrasonography	40
10. Automated perimetric image of advanced papilledema	41
11. A stepwise algorithm for the management of patients with idiopathic intracranial hypertension	43
