

Table of Content

Introduction	1
Aim of the work	3
Visual development	4
Anatomy of the cornea	8
• Surface zones of the cornea	8
• Structure	9
Amblyopia	14
• Types	15
• Causes	20
• Pathophysiology	20
• Signs and symptoms	21
• Treatment	22
Anisometropia	26
• Treatment	27

LASEK in pediatric refractive surgery	29
• Age and LASEK surgery	29
• Principles of LASEK in refractive surgeries	31
• Types of LASEK	32
• Visual acuity measurement in children	35
• Precautions of LASK surgery	41
• Indications	45
• Contraindications	49
• Legibility	51
LASEK technique	52
• Procedure remarks	52
• Preoperative examination and investigation	53
• Pachymetry	55
• Candidate preparation	58
• Preoperative medication	58
• Surgical technique	59
• Post-operative management	62
• Complications	62
• Outcome and stability	64
Summary and conclusions	66
References	68
