10- Arabic Summary.....	--

List of Abbreviations

- 2D.....Two dimensional
- 3D.....Three dimensional .
- AIDS.....Acquired immunodeficiency syndrome.
- CISS.....Constructive interference in steady state.
- CN.....Cranial nerve.
- CNS.....Central nervous system.
- CPA.....Cerebellopontine angle.
- CSOM.....Chronic suppurative otitis media.
- CT.....Computed tomography.
- FN.....Facial nerve.
- FNP.....Facial nerve palsy.
- FSE.....Fast spin echo.
- GG.....Geniculate ganglion.
- GSPN.....Greater superficial petrosal nerve.
- HBS.....House Brackmann system.
- HIV.....Human immunodeficiency virus.
- HRCT.....High resolution computed tomography.
- IAC.....Internal auditory canal.
- IFP.....Idiopathic facial paralysis.
- LMNL.....Lower motor neuron lesion.
- MRA.....Magnetic resonance angiography.
- MRI.....Magnetic resonance imaging.
- PCR..... Polymerase chain reaction.
- TE..... Time of echo.
- TR..... Time of repetition.
- TB..... Temporal bone.
- VN.....Vestibular nerve.
- VZ..... Varicella Zoster.

List of Diagrams

Diag No.	Title	Page
1.1	Overview of facial nerve.	4
1.2	Motor nucleus of cranial nerve VII in pons.	5
1.3	Facial nerve components.	6
1.4	Nervus Intermedius fibers spread apart.	7
1.5	Relationship of facial nerve to cochlear and vestibular nerves.	8
1.6	Intratemporal course of facial nerve.	9
1.7	Branchial component of facial nerve.	12
3.1	Sunderland classification of neural injury.	26
3.2	Patient with right facial palsy.	37
3.3	LMNL in patient with Bell palsy.	38

List of Figures

Fig. No.	Title	Page
2.1	Normal MRI of left facial nerve.	14
2.2	Normal anatomy of facial nerve.	15
2.3	Coronal MRI on IAC.	16
2.4	Saggital MRI on IAC.	17
2.5	Normal study MRI axial view at CPA.	18
2.6	Normal study MRI axial view at pons.	22
2.7	Parasaggital oblique MRI.	22
2.8	Parasaggital MRI.	23
2.9	Normal study axial HRCT proximal course of facial nerve.	24
3.1	Patient with right facial palsy.	34
3.2	LMNL in patient with Bell palsy.	36
4.1	Plain radiograph of patient with eyelid gold weight and spring implants.	41
4.2	Axial MRI facial nerve.	43
5.1	Man with left Bell palsy.	51
5.2	Man with typical idiopathic facial nerve palsy.	51
5.3	Woman with idiopathic facial palsy.	53

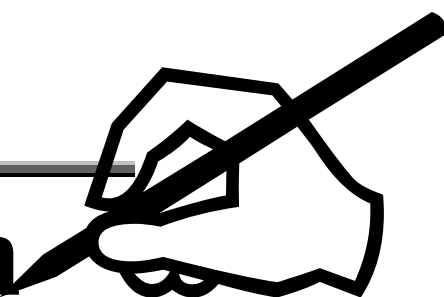

5.4	Transverse T1 MRI on CPA	54
5.5	Boy with acute left Bell palsy.	55
5.6	Transverse contrast and non contrast enhanced MRI.	56
5.7	Transverse and coronal contrast and non contrast enhanced MRI.	57
5.8	Contrast enhanced T1 MR at fracture of petrous bone.	58
5.9	Post contrast T1 axial MRI in granulomatus lesion.	59
5.10	Woman with neuroma.	59
5.11	Boy with acute left facial palsy.	60
6.1	MRI of temporal bone.	63
6.2	Cranial MRI T2.	64
6.3	Axial MRI T2.	66
6.4	Parasaggital T2 MRI.	66
6.5	MRI of brain .	68
6.6	MRI of brain showing minengeal enhancement .	69
6.7	Contrast enhanced axial and coronal T1MRI.	70
6.8	Axial MRI through the geniculate ganglion.	71
6.9	Axial contrast enhanced MRI .	74
6.10	Sagittal T1 MRI in multicystic tumor.	76

List of Tables

Table No.	Title	Page
3-1	Summary of innervation and action of facial muscles.	34
3-2	HBS of grading of facial nerve palsy.	37
4-1	MRI protocol for patient with peripheral facial nerve palsy.	45
