

CONTENTS

Subject	Page
Introduction	1
Aim of the work	4
Chapter I: MRI anatomy of trigeminal nerve	5
Chapter II: Trigeminal neuralgia :	15
- Typical Trigeminal Neuralgia (Tic Douloureux).....	17
- Atypical Trigeminal Neuralgia	17
- Pre-Trigeminal Neuralgia	18
- Multiple Sclerosis-Related Trigeminal Neuralgia	18
- Secondary or Tumor Related Trigeminal Neuralgia	18
- Post-Traumatic Trigeminal Neuralgia.....	19
- Causes of trigeminal neuralgia.....	19
- Symptoms of trigeminal neuralgia.....	19
Chapter III: MRI findings of mandibular nerve degeneration	21
Chapter IV: Causes of trigeminal nerve palsy	26
Chapter V: MRI technique of trigeminal nerve imaging	32
- MRI technique	32
Chapter VI : Lesions involving trigeminal nuclei	34
- Pontine infarction	34
- Pontine AVM	38
- Brainstem glioma	45
- Pontine multiple sclerosis	49
- Pontine rhombencephalitis	52
Chapter VII: Lesions involving the pre-pontine cistern	57
- Vascular trigeminal neuropathy	57
- Acoustic schwannoma	63

Subject	Page
Chapter VIII: Lesions involving the Meckel cave and cavernous sinus	66
- Cerebral aneurysm	67
- Meningioma	72
- Epidermoid Cyst	77
- Arachnoid Cyst	79
- Miscellaneous Cysts	80
- Lipoma	81
- Melanocytic Neoplasms	83
- Miscellaneous Meningeal Lesions	84
- Tumors Originating from the Skull Base with CPA Impingement	86
- Cholesterol Granuloma	86
- Paraganglioma	87
- Chondroma and chondrosarcoma	88
- Chordoma	90
- Endolymphatic Sac Tumor	91
- Pituitary Adenoma	92
- Apex Petrositis	93
- Intraaxial Tumors with CPA Impingement	93
- Pedunculated Brainstem Glioma	94
- Choroid Plexus Papilloma	94
- Lymphoma	95
- Hemangioblastoma	96
- Ependymoma	97
- Medulloblastoma	98
- Dysembryoplastic Neuroepithelial Tumor	99
- Cavernous syndrome	102
- Infectious disease	102
- Cavernous Sinus Thrombophlebitis	102
- Actinomycosis	103
- Rhinocerebral Mucormycosis	103
- Aspergillosis	104
- Noninfectious inflammation	105
- Tolosa-Hunt Syndrome	105
- Inflammatory Pseudotumor	106
- Vascular lesions	107
- Carotid–Cavernous Fistula and Dural Arteriovenous Fistula.	107

- Neoplasm.....	108
-----------------	-----

Subject	Page
Chapter IX: Lesions involving the trigeminal branches	109
- Peri-neural spread of tumor	109
- Adenoid cystic tumors	113
- Squamous cell carcinoma	117
- Lymphoma.....	118
- Metastasis.....	119
- Neoplastic meningitis	121
- Mucoepidermoid Carcinoma	123
- Orbital Pseudotumor	126
- Optic Glioma	128
- Masticator space abscess	129
Case presentation	131
Summary and conclusion	135
References	137
Arabic summary	

LIST OF FIGURES

No.	Title	Page
1	MR imaging of maxillary division of 5 th nerve	8
2	MR imaging of gasserian ganglion	8
3 & 4	Normal cross sectional anatomy of the Meckel cave	9 & 10
5	MR imaging of cisternal segment 5 th nerve	11
6	MR imaging of normal muscles of mastication	12
7	MR imaging of foramen rotundum	12
8	MR imaging of Meckel cave and mandibular division 5 th nerve	13
9	MR imaging of Long standing chronic V3 denervation	23
10	MR imaging of Early less severe chronic V3 denervation.....	24
11	MR imaging shows fatty infiltration and volume loss right sided muscles of mastication	24
12	MR imagings of Acute V3 denervation	25
13 & 14	MR imaging of trigeminal ganglion and prominent peri-neural venous plexus	29-30
15	MR imaging of pontine infarct	36
16	MR imaging mature pontine infarct	37
17	MR imaging of infarct upper left pons	37
18	MR imaging of cavernous hemangioma	43
19	MR imaging of cavernous angioma with a developmental venous abnormality	44
20	MR imaging of cavernous hemangioma	45
21	MR imaging of pontine glioma.....	48
22	MR imaging of multiple sclerosis in the region of right main sensory nucleus 5 th nerve	51
23	MR imaging of Right pontine isthmus multiple sclerosis	51
24	MR imaging of multiple sclerosis of right brachium pontis and semi-ovale	52
25	MR imaging of neurosarcoidosis	55
26	MR imaging of trigeminal neuritis	55
27	MR imaging viral rhombencephalitis of left trigeminal nerve	56

No.	Title	Page
28	MR imaging of pachymeningitis	56
29	3D-FTSP image of small non pathological cisternal vessel lying inferior to REZ	60
30	MR imaging of Dolichoectasia of the vertebral and basilar arteries with vascular compression of trigeminal nerve.	60
31 & 32	MR imaging of neuro-vascular compression of the trigeminal nerve.	61
33	MR imaging of neurovascular compression with atypical left trigeminal neuralgia is the distribution of the maxillary nerve.	62
34 & 35	MR imaging of trigeminal schwannoma.	64-65
36	CISS image of trigeminal schwannoma.....	65
37	MR imaging of giant partially thrombosed left carotid artery aneurysm.....	70
38	MR imaging of widened and elongated basilar artery...	71
39	MR imaging of ICA aneurysm arising within the cavernous sinus.	72
40	MR imaging of a small CPA meningioma.	75
41	MR imaging of a large CPA meningioma fills both CPA and IAC.....	76
42	MR imaging of normal right CSF filled Mechel's cave and left Meckel's cave meningioma.	76
43	MR imaging of epidermoid cyst.	78
44	MR imaging of epidermoid cyst in woman with typical left trigeminal neuralgia.....	79
45	MR imaging of arachnoid cyst.	80
46	MR imaging of trigeminal lipoma of right trigeminal nerve and Meckels cave.....	82
47	MR imaging of large cerebellopontine angle lipoma ...	83
48	MR imaging of lipoma with typical right trigeminal neuralgia	83
49	MR imaging melanoma with left cerebellar syndrome	84
50	MR imaging bilateral Meckels cavity leukemic deposits	85

No.	Title	Page
51	MR imaging leptomeningeal metastasis from cerebellar medulloblastoma	85
52	MR imaging of cholesterol granuloma with right trigeminal neuralgia	87
53	MR imaging paraganglioma with right CPA invasion ...	88
54	MR imaging chondrosarcoma	89
55	MR imaging chordoma with right trigeminal neuralgia	90
56	MR imaging intracranial chordoma	91
57	MR imaging endolymphatic sac tumor with von-hippel- lindau disease	92
58	MR imaging of pituitary adenoma	92
59	MR imaging of apex petrositis with Gradenigo syndrome at clinical evaluation	93
60	MR imaging of brain stem glioma with vertigo and hypocausia	94
61	MR imaging of choroid plexus papiloma with vertigo and intracranial hypertension	95
62	MR imaging of lymphoma with vertigo and headache ..	96
63	MR imaging of haemangioblastoma with von-lippel-lindau disease	97
64	MR imaging of ependymoma with left facial palsy	98
65	MR imaging of medulloblastoma	99
66	MR imaging of DENT	100
67	MR imaging of cavernous sinus thrombophlebitis and skull base osteomyelitis	102
68	MR imaging of actinomyces	103
69	MR imaging of rhinocerebral mucormycosis with diplopia	104
70	MR imaging of aspergillosis with diplopia	105
71	MR imaging of tolosa-hunt syndrome	106
72	MR imaging of inflammatory pseudo tumor.....	107
73	MR imaging of dural A-V fistula	108
74	MR imaging of perineural spread of ACC	111

No.	Title	Page
75	MR imaging of preineural spread of malignant melanoma	112
76	MR imaging of post-surgically resected hard palate ACC	115
77	MR imaging of nasopharyngeal carcinoma	115
78	MR imaging of ACC developed in the PPS with intracranial extension	116
79	MR imaging of squamous cell carcinoma of skin	118
80	MR imaging of lymphoma of parotid gland	119
81	MR imaging of colon carcinoma metastasis in the left mandible	120
82	MR imaging of tuberculous meningitis	121
83 & 84	MR imaging of acute lymphoblastic leukemia	122
85	MR imaging of metastatic melanoma and meningeal carcinomatosis	123
86	MR imaging of high grade mucoepidermoid carcinoma	125
87	MR imaging of orbital pseudo-tumor	127
88	MR imaging of bilateral optic nerve gliomas	128
89	MR imaging of masticator space abscess	130
90	MR imaging of intra and extra cranial meningioma with left sided trigeminal neuralgia	132
91	MR imaging of perineural spread of skin cancer	133
92	MR imaging of chordoma versus chondrosarcoma of central skull base	134

LIST OF DIAGRAM

No.	Title	Page
1	Anatomic diagram of cavernous sinus.....	7
2	Schematic presentation of cavernous sinus in a coronal plane	8
3	Coronal anatomy of masticator muscles	12
4	Trigeminal Nerve & its peripheral branches	14
5	Motor fibers of mandibular division of 5 th N	22

LIST OF TABLE

No.	Title	Page
1	D.D. of lesions involving the trigeminal nerve.....	31
2	Spin-echo MR imaging protocol in trigeminal neuropathy	33
3	MR imaging characteristics and suggestive features of unusual lesions arising from the cerebellopontine cistern	100
4	MR imaging characteristics and suggestive features of intra-axial or intraventricular lesions invading the CPA	101

Introduction

Aim of the work

Chapter I

MRI anatomy of trigeminal nerve

Chapter II

Trigeminal neuralgia

Chapter III

MRI findings of mandibular nerve degeneration

Chapter IV

Causes of trigeminal nerve palsy

Chapter V

MRI technique of trigeminal nerve imaging

Chapter VI

Lesions involving trigeminal nuclei

Chapter VII

Lesions involving the pre-pontine cistern

Chapter VIII

Lesions involving the Meckel cave and cavernous sinus

Chapter IX

Lesions involving the trigeminal branches

Case presentation

Summary & conclusion

Acknowledgment

First and foremost, I always feel indebted to **ALLAH**, the most kind and merciful, who always guides and helps me to complete this work.

It is my great pleasure and honor to express my deepest gratitude and thanks to ***Prof. Dr. Medhat Mohammed Refaat***, Professor of Diagnostic Radiology, Faculty of Medicine, Benha University, for his kind cooperation, valuable aid and advices.

I would like to express my deepest gratitude and thanks to ***Dr. Bahaa El-Deen Mohammed Ibrahim***, Lecture of Diagnostic Radiology, Benha University, for his kind support, meticulous guidance and continuous encouragement.

I wish to thank my Father for his strong support in my whole life. I am also deeply indebted to my Mother for her continuous prays. I am indebted to all my professors, colleagues and technicians in the department of Diagnostic Radiology, Faculty of Medicine, Benha University.

Dr. Ashraf Shafey Abd El-Fattah
