

LIST OF CONTENTS

Acknowledgement	
Introuduction	1
Aim of the work	4
Review of the literature	
1- Renal anatomy	5
2- Techniques of magnetic resonance imaging of the kidney.....	10
3- Normal MR anatomy of the kidney	18
4- Pathology of renal neoplasms	21
5- Appearance of cystic neoplasm of the kidney by MRI....	49
6- Appearance of solid renal neoplasm by MRI.....	53
7- Other imaging modalities of renal neoplasms	56
Patients and Methods	
1- Technique for abdominal MRI	69
2- Technique for computed tomography.....	73
3- Technique for selective renal angiography.....	75
4- Proof of the nature of renal neoplasm.....	75
5- Imaging analysis	77
6- Statistical analysis.....	78
Results.....	79
Representative Cases.....	98
Discussion	131
Summary and Conclusion	151
Reference	155
Arabic Summary.....
