| Title                                       | page |
|---------------------------------------------|------|
| List of figures.....                        | I    |
| List of tables .....                        | IV   |
| List of Abbreviations.....                  | VI   |
| Introduction .....                          |      |
| - <b>Hypertension and its complications</b> | 1    |
| - <b>Therapy of hypertension</b>            | 6    |
| - <b>Insulin Resistance</b>                 | 17   |
| - <b>Terazosin</b>                          | 27   |
| • Chemistry.                                | 27   |
| • Pharmacology                              | 27   |
| Aim of the work .....                       | 34   |
| Material and Methods                        | 35   |
| - <b>Material</b>                           |      |
| • Animals.                                  | 35   |
| • Drugs.                                    | 35   |
| • Physiological solutions                   | 36   |
| • Apparatus .                               | 37   |
| - <b>Methods</b>                            |      |
| (A)Experimental design                      | 38   |
| (B)Detailed procedures.                     | 39   |
| • In vivo experiments.                      | 39   |
| • Biochemical studies.                      | 40   |
| • In vitro experiments                      | 41   |
| • Statistical analysis                      | 44   |
| Results .....                               | 45   |
| - <b>In vivo experiments.</b>               | 45   |
| - <b>Biochemical studies.</b>               | 58   |
| - <b>In vitro experiments</b>               | 68   |
| Discussion .....                            | 79   |
| Summary and conclusion                      | 95   |
| References .....                            | 97   |
| Arabic summary .....                        |      |
