

TABLE OF CONTENTS

Title	Page
Introduction.....	1
Aim of the work.....	3
Review of literature.....	4
Chapter I:Atherosclerosis & inflammatory markers.....	4
Pathological sequence of atherosclerosis.....	5
Plaque Morphology.....	9
Assessment of Severity of Stenosis.....	9
Vulnerable plaques.....	11
Correlation of Lesion Types with Clinical Syndromes.....	12
Inflammation as a trigger of instability.....	16
Inflammatory markers.....	18
<i>C-Reactive Protein (CRP).....</i>	19
<i>CRP and pathogenesis of atherosclerosis.....</i>	20
AHA Guidelines for use of hs-CRP in Clinical Practice.....	21
Clinical Utility of CRP in CAD.....	22
Predictive value of CRP in asymptomatic individuals.....	23
CRP in patients with stable angina.....	24
CRP and percutaneous coronary intervention.....	25

Cytokines.....	29
Properties of Cytokines.....	30
Interleukin-6.....	32
Treatment Can Modify Markers of Inflammation.....	33
The JUPITER Trial and hs-CRP (landmark trial).....	35
Chapter II : Coronary stents.....	39
Drug eluting stents.....	40
Sirolimus (Rapamycin) eluting stents.....	42
Paclitaxel eluting stents.....	47
Coronary stenting a stimulus of inflammatory response.....	49
Chapter III : Instent restenosis.....	52
Pathophysiology of In-Stent Restenosis.....	53
Mechanism of Restenosis after DES.....	57
Clinical presentation and diagnosis of instent restenosis.....	58
Angiographic Pattern of Restenosis after DES Implantation.....	60
Is there Delayed Restenosis in Patients Treated with DES?	63
Predictors of instent restenosis.....	64
Predictors of Restenosis after DES Implantation.....	70
Treatment of instent restenosis.....	72

Patients & methods.....	78
Results.....	88
Discussion.....	137
Study limitations.....	151
Conclusions.....	152
Recommendations.....	153
Summary.....	154
References.....	158
Appendix.....	
Arabic Summary.....
