• Arabic Summary	

LIST OF TABLES

No.	Page
1- Distribution of pregnant women According to Socio – demographic	54
2- Distribution of Pregnant According to Obstetric History.	56
3- Distribution of pregnant women according to present medical history.	57
4- Distribution of pregnant women's according to Personal daily habit.	59
5- Distribution of knowledge about prevent of UTI as reported by pregnant women's.	62
6-Distribution Effect of UTI in pregnancy (mother) as reported by pregnant women's.	63
7- Distribution Effect of UTI in pregnancy (fetus) as reported by pregnant women's.	64
8-Distribution According To Signs and Symptoms of UTI as reported by pregnant women's.	66
9- Distribution of mother's according to self care regarding U.T.I symptom (voiding change) as pregnant women.	67
10- Distribution of mother's according to self care regarding another U.T.I symptom.	68
11- Descriptive Data Analysis for Harmful Effects or Discomforts Related to Use traditional Self Care Measures to Relieve Dyspareunia, dysuria.	69
12- Percentage Distribution of pregnant women's according to Effect of Self Care on UTI symptom.	70
13- Relation between self care and Socio-demographic data	71
14- Relation between Knowledge and Socio demographic data	72
15- Relation ship between Dailey Habits and In continence	73
16- Relation ship between Dailey Habits and Abdominal Pain	72
17- Relation ship between Dailey Habits and Burin Sensation of Urination	74
18- Relation ship between Frequency of UTI and self care.	74
19- Relation ship between symptom of UTI and self care.	75

List of Figures

No	Page
Review	
1- A anterior view for urinary tract	5
2- Kidney Ren (Nephros) oblique and vertical hemisection displaying the renal cortex, the medulla and the pelvis: ventral view (left) Arrows point from the pyramids to the calyces.	6
3- Segital section of the female pelvis.	11
4- Urethritis.	20
5- Bacterial Cystitis.	21
6- Pyelonephritis.	24
Results	
1- Distribution of pregnant women According to Socio – demographic (Education).	55
2- Distribution of pregnant women According to Socio – demographic (Income).	55
3- Distribution of pregnant women according to present medical history.	58
4- Distribution of pregnant women's according to stage of pregnancy.	58
5- Distribution of pregnant women's according to sources of information as reported by pregnant women's	60
6- Distribution of pregnant women's according to Means of Urinary Tract Infection as reported by pregnant women's.	61
7- Distribution Effect of UTI in pregnancy (mother) as reported by pregnant women's.	63
8 Distribution Effect of UTI in pregnancy (mother) as reported by pregnant women's.	64
9- Distribution Effect of UTI in Sexual Relation as reported by pregnant women's.	65
