List Of Figures

No.	Title	Page
1- A	Bones of the Ankle Joint (AP view)	11
1- B	Bones of the Ankle Joint (Lateral view)	12
2	Drawings illustrate the anatomy of the calcaneus	14
3- A	Ligaments and Tendons of the Ankle (Medial Aspect)	21
3- B	Ligaments and Tendons of the Ankle (Lateral Aspect)	21
3- C	Ligaments and Tendons of the Ankle (Posterior Aspect)	22
4- A	The mucous sheaths of the tendons around the ankle (Lateral aspect)	29
4- B	The mucous sheaths of the tendons around the ankle (Medial aspect)	29
5	MRI Axial Plane of the Ankle	34
6	MRI Axial Plane of the Ankle	34
7	MRI Axial Plane of the Ankle	35
8	MRI Axial Plane of the Ankle	35
9	MRI Axial Plane of the Ankle	36
10	MRI Axial Plane of the Ankle	36
11	MRI Sagittal Plane of the Ankle	40
12	MRI Sagittal Plane of the Ankle	40
13	MRI Sagittal Plane of the Ankle	41
14	MRI Sagittal Plane of the Ankle	41
15	MRI Coronal Plane of the Ankle	44
16	MRI Coronal Plane of the Ankle	44
17	MRI Coronal Plane of the Ankle	45

18	MRI Coronal Plane of the Ankle	45
19	MRI Coronal Plane of the Ankle	46
20	Stability of ankle	50
21	Position of foot	52
22	On the left image the lateral malleolus is pushed off by exorotation of the talus.	53
23	Weber and Lauge-Hansen classification	55
24	Weber A - Lauge Hansen SA (Supination Adduction)	56
25	Weber B - Lauge Hansen SE (supination exorotation)	58
26	In Weber B or supination exorotation injury the events take place in a clockwise manner	60
27	In Weber C or (PER) pronation exorotation injury the events take place in a clockwise manner	62
28	The sequence of events in a Weber C fracture or Lauge-Hansen pronation exorotation injury also happens in a clockwise sequence	63
29	Stress fracture. Sagittal T1-weighted MR image demonstrates a transverse, non displaced fracture.....	91
30	Calcaneal stress fracture. Sagittal fast STIR (TR/TE, 2750/43; inversion time 160 milliseconds).....	92
31	Stage I osteochondral lesion. Coronal T1-weighted MR image shows a subchondral area....	95
32	Stage II osteochondral lesion. Coronal T1-weighted MR image reveals a partially detached.....	95
33	Stage III osteochondral lesion. Coronal T1-weighted MR image reveals an osteochondral fragment.....	96
34	Stage IV osteochondral lesion. Coronal T1-weighted MR image demonstrates a crater in.....	96
35	Unstable osteochondral lesion. Sagittal STIR MR image reveals a talar, osteochondral lesion with fluid-like signal.....	97
36	Avascular necrosis of the talus. Sagittal STIR MR image demonstrates serpentine.....	98
37	T2-weighted fat-suppressed image through the ankle demonstrating abnormal fluid signal at the Achilles paratendon.....	102

38	Chronic tendinosis of the Achilles tendon. Sagittal T1-weighted MR image shows fusiform.....	103
39	Sagittal FS PD FSE MR shows hyper intense signal in distal Achilles tendon. partial tear....	103
40	Insertional partial tear of the Achilles tendon. Sagittal STIR MR image shows increased signal intensity.....	104
41	Complete tear of the Achilles tendon. Sagittal T2-weighted MR image depicts complete disruption and retraction.....	105
42	Type I tear of the posterior tibial tendon. On an axial T2-weighted MR image, the markedly thickened tendon (straight arrow) has a diameter 10 times that of the.....	107
43	Advanced type I tear of the posterior tibial tendon. Axial T1-weighted MR image shows marked tendon.....	108
44	Type II tear of the posterior tibial tendon. Axial proton-density-weighted MR image shows an attenuated.....	108
45	Type III tear of the posterior tibial tendon. Axial T2-weighted MR image demonstrates absence of the posterior tibial tendon....	110
46	Dislocation of the posterior tibial tendon. Axial proton-density-weighted MR image shows the posterior tibial tendon anterior.....	110
47	Peroneal tenosynovitis. Axial T2-weighted MR image shows a large amount of fluid within the common peroneal tendon.....	112
48	Partial tear of the peroneus brevis tendon. Axial T2-weighted (TR/TE, 4000/96) MR image with fat saturation.....	112
49	Longitudinal tear of the peroneus brevis tendon. Axial proton-density (TR/TE, 2500/10) MR image depicts.....	114
50	Dislocation of peroneal tendons. Axial proton-density-weighted MR image shows the dislocated peroneus brevis and longus tendons (arrowhead) within.....	114
51	Flexor hallucis longus tenosynovitis.	116
52	Chronic tear of the anterior talofibular ligament. Axial T1-weighted MR image demonstrates.....	121
53	Injury of the calcaneofibular ligament. Sequential coronal T1-weighted MR images demonstrate.....	122

54	Chronic tear of the calcaneofibular ligament. Axial T2-weighted MR image demonstrates marked...	122
55	Injury of the deltoid ligament.	123
56	Anterolateral impingement syndrome. Sagittal STIR MR image shows a low-signal-intensity "meniscoid" mass...	125
57	Sinus tarsi syndrome in a patient with rheumatoid arthritis. Sagittal T1-weighted MR image shows obliteration of fat by an...	127
58	Tarsal tunnel syndrome secondary to ganglion cyst. Axial T2-weighted MR image reveals a ganglion cyst...	128
59	Normal anatomy of the SPN. Coronal oblique spin-echo T1-weighted MR image....	130
60	Normal anatomy of the anterior tarsal tunnel. Shows the anterior tibial tendon (large arrowhead), extensor hallucis longus muscle and tendon (thick arrow),.....	131
61	Comminuted fracture distal tibia. (A)Sagittal T1 WI (B)Sagittal STIR (C)Axial T1 WI(D)Axial T2 WI (E)Axial PD SPIR	155- 156
62	Type 2 complete rupture of the Achilles tendon. (A) Axial T1 WI (B)Axial T2 WI (C) Axial STIR (D)Sagittal T1WI (E)Sagittal T2 WI (F)Sagittal PD SPIR.	158- 159
63	Acute osteochondral lesion of the talus. (A)Coronal T1 WI (B)Coronal STIR.	161
64	Grade II lateral collateral ligament sprain.(A) Axial T1WI (B)Axial T2 WI (C)Axial PD SPIR.	163
65	Grade I lateral collateral ligament sprain. (A)Coronal T1 WI (B)Coronal PD SPIR.	165
66	Tenosynovitis of the deep flexor tendons. (A)Axial T1 WI (B)Axial T2 WI (C)Axial PD SPIR.	167
67	Focal tendinosis of the distal 3cm of the Achilles tendon. (A)Axial T1 (B)Axial T2 WI (C)Axial PD SPIR (D) sagittal T1 WI (E)Sagittal STIR.	169- 170
68	Focal tendinosis of Achilles tendon (A)Axial T1 (B)Axial T2 (C)Axial STIR (D)Sagittal T1 (E)Sagittal T2 (F)Sagittal STIR.	172- 173
69	Haglund's deformity.(A)Sagittal T1 (B)Sagittal T2 (C)sagittal STIR	175

70	Sinus tarsi syndrome. (A)Sagittal T1 (B)Sagittal STIR (C)Coronal T1 (D)Coronal STIR.	177
