INTRODUCTION..... 1

AIM OF THE WORK 3

AIR POLLUTION..... 4

Air Pollution in Its Historical Context 4

Types and Sources of Air Pollution 10

Classification of air pollutants 11

**MECHANISMS OF DEFENSE AGAINST AIR POLLUTION-
RELATED RESPIRATORY EFFECTS 14**

**METHODS OF STUDYING THE HEALTH EFFECTS OF AIR
POLLUTION..... 19**

OUTDOOR AIR POLLUTION..... 25

Outdoor air pollutants 26

INDOOR AIR POLLUTION..... 42

Sources of Indoor Air Pollution 46

Indoor air pollutants 49

ADVERSE HEALTH EFFECTS OF AIR POLLUTION	67
Air Pollution and Its Effects on the Respiratory System	68
1- Lung development modifications by air pollutants.....	68
2- Inflammation and air pollution.....	70
3- Bronchial associated lymphoid tissue (BALT) modifications	74
4- Carcinogenic and mutagenic effects	75
5- Pulmonary fibrosis and atmospheric pollution	80
6- Chronic obstructive pulmonary disease (COPD).....	83
7- Air pollution and asthma	86
8- Genotoxic effects.....	89
9- Tuberculosis	89
Adverse pregnancy outcomes	90
Blindness	91
Air pollution and heart disease.....	91
Sick building syndrome	93
BIOTERRORISM.....	95
CONTROL STRATEGIES	104
Patient-oriented strategies	106
Community-oriented strategies	107
