INTRODUCTION	1
REVIEW OF LITERATURE	4
MATERIALS AND METHODS	23
RESULTS AND DISCUSSION	32
I.A. Studies on distribution of some economic lepi- dopterous insect pests in relation to cropping system	32
1. <u>Spodoptera littoralis</u>	32
2. <u>Agrotis ipsilon</u>	35
3. <u>Phytometra</u> , spp.	38
B. Studies on population dynamics of some lepidop- terous insect pests in relation to climatic factors	42
1. Seasonal abundance and population fluctuation.	42
a. <u>Spodoptera littoralis</u>	42
b. <u>Agrotis ipsilon</u>	48
c. <u>Phytometra</u> spp.	51
2. The effect of three weather factors, viz., maximum, minimum temperature and relative humidity	55
a. <u>Spodoptera littoralis</u>	55
1. Arab El-Ghadery locality	55
2. Kafr Shokr locality	60
3. Bahtim locality	61
b. <u>Agrotis ipsilon</u>	62
1. Arab El-Ghadery locality	62
2. Kafr Shokr locality	65
3. Bahtim locality	65
