✎ Abstract.....	I
✎ List of Tables.....	II
✎ List of Figures.....	IV
✎ List of Abbreviations.....	V
✎ Glossary.....	VII
✎ Introduction.....	1
✎ Aim of the Study.....	5
✎ Operational definition.....	6
✎ Review of Literature.....	
Anatomy and physiology of pancreas.....	7
Definition, Epidemiology and Types of diabetes mellitus.....	10
Pathophysiology of diabetes mellitus.....	17
Risk factors for diabetes mellitus.....	18
Etiology of diabetes mellitus.....	19
Signs and Symptoms of diabetes mellitus	20
Diagnostic Finding of diabetes mellitus.....	21
Complications of diabetes mellitus.....	22
Medical management of diabetes mellitus.....	25
Anatomy and physiology of foot	26
Definition and epidemiology of diabetes mellitus.....	28
Etiology of diabetic foot.....	29
Risk factors of foot ulceration.....	32
Pathophysiology of diabetic foot.....	34
Grades of diabetic foot ulceration.....	35
Signs & symptoms and Diagnostic finding of diabetic foot.....	36

Treatment of diabetic foot.....	37
Nursing management of diabetic foot.....	38
✂ Subjects and Methods.....	55
✂ Results.....	62
✂ Discussion.....	86
✂ Conclusion.....	99
✂ Recommendations.....	100
✂ Summary.....	101
✂ References.....	105
✂ Appendix I (protocol).....	
✂ Appendix II (tools).....	
✂ Arabic Summary.....
